# कुमारी बैक लिमिटेड सञ्चालक समितिको वार्षिक प्रतिवेदन चौबिसौ वार्षिक साधारण सभा

#### शेयरधनी महानुभावहरु,

कुमारी बैंक लिमिटेडको यस २४ औं वार्षिक साधारण सभामा उपस्थित सम्पूर्ण शेयरधनी महानुभावज्यूहरु, आमन्त्रित प्रतिनिधिज्यूहरु, लेखापरीक्षकज्यू, पत्रकार मित्रहरु तथा सहयोगी कर्मचारीहरुलाई सञ्चालक समितिको तर्फबाट हार्दिक स्वागत तथा अभिवादन व्यक्त गर्दछौं।

बैंकको २४ औं वार्षिक साधारण सभामा मुख्यतः हामी यस बैंकको आ.व.२०⊏०/⊏१ को वार्षिक वित्तीय विवरण प्रस्तुत गर्न उपस्थित भएका छौं । वार्षिक प्रतिवेदनका साथ साथै हामी यहाँहरु समक्ष बैंकको चालु आर्थिक वर्षको उपलब्धि तथा भावी योजनाहरुको बारेमा समेत संक्षिप्तमा प्रस्तुत गर्नेछौं । विगतका घटनाऋमहरुबाट पाठ सिक्दै प्राप्त अवसर तथा चुनौतीहरुलाई समयानुकुल बैंकको हितमा उपयोग गर्दै आज हामी स्थापना कालको २४ वर्ष पुरा गरिसकेका छौं । हाम्रो उद्देश्य सधैं नै हाम्रा ग्राहकहरुलाई आधुनिक प्रविधिको प्रयोग र दक्ष कर्मचारीहरुद्धारा उत्कृष्ट सेवा प्रदान गर्ने, छरिएर रहेका पूँजीलाई एकिकृत गरी समूचित लगानी गर्ने, लगानीकर्ताहरुलाई जति सक्दो बढी प्रतिफल दिने, संस्थामा उच्चतम संस्थागत सुशासन र नैतिक आचरण कायम राख्ने र देशले अवलम्बन गरेका नियम तथा कानुनलाई अक्षरस परिपालन गर्ने रही आएको छ । बैंकका यी उद्देश्यहरुलाई सफलतापुर्वक हासिल गर्नका लागि प्रत्यक्ष वा अप्रत्यक्ष रुपमा साथ सहयोग तथा शुभकामना दिनुहुने सम्पूर्णमा हामी मुरी-मुरी धन्यबाद अर्पण गर्दछौं । गत आर्थिक वर्षमा कर्जायोग्य कोषमा देखिएको दवाव, उच्च व्याजदर, सरकारी आम्दानी र खर्चमा भएको कमीले देशको समग्र आर्थिक गतिविधि संकुचन आई बैंकिङ्ग प्रणालीमा समेत उच्च दवाव देखियो । प्रतिकूल अवस्थामा हामी समान प्रकृतिका कुमारी बैंक लि. र नेपाल क्रेडिट एण्ड कमर्स बैंक लि. एक आपसमा मर्जर भई २०७९/०९/१७ बाट एकीकृत कारोबार गर्न यहाँहरुकै साथ र सहयोगले सफल भएका छौं । दुई ठूला बैंकहरुको मर्जर पश्चात्पका चूनौतीहरु र बैंकको कर्जा सम्पत्तिमा देखिएको दवाबका कारण बृद्धि भएको निष्कृय कर्जाहरूको उचित व्यवस्थापन गरी प्रगती उन्मुख रहन आगामी दिनहरुमा समेत यहाँहरुले यस बैंकको प्रगतिमा उत्तिकै साथ दिनुहुनेछ भन्ने हामीले विश्वास लिएका छौं ।

#### (१) अन्तर्राष्ट्रिय र राष्ट्रिय अर्थतन्त्रको पुनरावलोकन :

#### क) विश्व अर्थतन्त्र

विश्व अर्थतन्त्रमा २०२३ र २०२४ मा आर्थिक वृद्धिदर सुस्त भएको छ । उच्च ब्याज दर र भूराजनीतिक द्वन्द्वका कारण उन्नत राष्ट्रका अर्थतन्त्रको वृद्धिमा संकुचन आउने अनुमान गरिएको छ । अन्तर्राष्ट्रिय मुद्राकोषले विश्व अर्थतन्त्र र विकसित एवम् उदीयमान अर्थतन्त्रको वृद्धिदर सन् २०२३ मा न्यून रहे सरह सन् २०२४ मा पनि सामान्य सुधार मात्र आउने प्रक्षेपण गरेको छ ।

अन्तर्राष्ट्रिय मुद्राकोषको सन् २०२३ जुलाईको प्रक्षेपण अनुसार विश्व अर्थतन्त्र सन् २०२१ मा ६.३ प्रतिशत र सन् २०२२ मा ३.४ प्रतिशतले विस्तार भएकोमा सन् २०२३ र सन् २०२४ मा ३.० प्रतिशतले विस्तार हुने देखिएको छ । विकसित अर्थतन्त्र भने सन् २०२२ मा २.७ प्रतिशतले विस्तार भएकोमा सन् २०२३ मा १.४ प्रतिशतले र सन् २०२४ मा १.४ प्रतिशतले विस्तार हुने कोषको प्रक्षेपण छ । उदीयमान तथा विकासोन्मुख मुलुकहरुको अर्थतन्त्र सन् २०२२ मा ४.० प्रतिशतले विस्तार भएकोमा सन् २०२३ मा ३.९ प्रतिशतले र सन् २०२४ मा ४.२ प्रतिशतले विस्तार हुने प्रक्षेपण छ ।

एसियाली उदयीमान र विकासशील अर्थतन्त्रहरूको वृद्धिदर २०२२ मा ४.४ प्रतिशतको तुलनामा २०२३ मा ४.३ प्रतिशत रहने अपेक्षा गरिएको छ। छिमेकी मुलुकहरु भारत र चीनको अर्थतन्त्र सन् २०२२ मा ऋमशः ७.२ प्रतिशत र ३.० प्रतिशतले विस्तार भएकोमा सन् २०२३ मा ऋमशः ६.१ प्रतिशत र ४.२ प्रतिशतले विस्तार हुने प्रक्षेपण रहेको छ। सन् २०२४ मा भारतको अर्थतन्त्र ६.३ प्रतिशतले र चीनको अर्थतन्त्र ४.४ प्रतिशतले विस्तार हुने कोषको प्रक्षेपण रहेको छ।

विश्व अर्थतन्त्रले भोग्नुपरेको उच्च मुद्रास्फीतिको स्थितिमा कमशः सुधार हुँदै गएको छ । यद्यपि, उर्जाको मूल्य अनिश्चितता, जारी युद्धहरु र आर्थिक मन्दीको सामना गर्न अवलम्बन हुन सक्ने नीतिगत लचकताका कारण मुद्रास्फीति बढ्न सक्ने जोखिम कायमै रहेको छ । महँगीमा केही सुधार भए पनि यो अभौ उच्च छ । सन् २०२२ मा विश्व मुद्रास्फीति ८.७ प्रतिशत रहेकोमा सन् २०२३ मा ७.० प्रतिशत र सन् २०२४ मा ४.९ प्रतिशतमा भर्ने कोषले प्रक्षेपण गरेको छ । सन् २०२२ मा विकसित र विकासोन्मुख मुलुकहरुको मुद्रास्फीति कमशः ७.३ प्रतिशत र ९.८ प्रतिशत रहेकोमा सन् २०२३ मा कमशः ४.७ प्रतिशत र ८.३ प्रतिशत तथा सन् २०२४ मा कमशः २.६ प्रतिशत र ६.४ प्रतिशतमा भर्ने कोषको प्रक्षेपण छ ।

विश्वका अधिकांश केन्द्रीय बैंकहरुले सन् २०२२ को सुरुदेखि अवलम्बन गर्दै आएको कसिलो मौद्रिक नीतिको कार्यदिशालाई कायमै राखेका छन् । उच्च मुद्रास्फीति अपेक्षामा अंकुश लगाउनुको साथै विकसित मुलुकहरुले अवलम्बन गरेको कसिलो मौद्रिक नीतिको प्रभाव वित्तीय बजारमा पर्न नदिन उदीयमान मुलुकहरुले पनि मौद्रिक नीतिको कसिलो कार्यदिशालाई निरन्तरता दिएका छन् ।

रुस-युक्रेन युद्धपछि बढेको पेट्रोलियम पदार्थ, खाद्यान्न र धातुजन्य बस्तुहरुको मूल्य हाल स्थिर रहेको वा घट्ने प्रवृत्तिमा रहेका छन् । फलस्वरुप, विश्वका अधिकांश मुलुकहरुमा मुद्रास्फीति घट्दै गएको छ । तथापि, मुद्रास्फीति अभ्नै लक्ष्यभन्दा माथि रहेको र जारी भूराजनैतिक तनाबका कारण इन्धनको मूल्यका साथै समग्र मूल्य स्थितिमा जोखिम कायमै रहेको हुँदा विश्वका धेरैजसो मुलुकहरुले अवलम्बन गर्दै आइरहेको कसिलो मौद्रिक नीतिको कार्यदिशालाई सन् २०२४, २०२४ मा पनि निरन्तरता दिने देखिन्छ ।

विश्व अर्थतन्त्रमा देखिएका चुनौतीहरु सामना गर्न अधिकांश मुलुकहरुले कसिलो मौद्रिक नीति अवलम्बन गरेका छन् । कोभिड-१९ संकट तथा रुस-युक्रेन युद्धबाट सिर्जित अनिश्चितताका वाबजुद धेरै मुलुकहरुले आर्थिक कृयाकलाप सहज बनाउने नीतिमा ध्यान केन्द्रित गर्दे लगेका छन् ।

अन्तर्राष्ट्रिय अर्थतन्त्रमा देखिएका उल्लिखित परिदृश्यवाट बैंकको कारोवारमा समेत प्रभाव पर्ने देखिएको छ ।

#### ख) देशको अर्थतन्त्र

बैंकको विगतका वर्षहरुको वित्तीय परिसूचकहरु सकारात्मक, व्यवस्थित तथा प्रगति उन्मुख रहेका छन् । हालका वर्षहरुमा नेपालको बैंकिङ्ग बजारमा देखिएको दवाव र आर्थिक क्रियाकलाप संकुचन आई बैंकको निष्क्रिय सम्पत्तिको बृद्धि र सोको व्यवस्थापनमा चूनौति थपिएको छ । बैंकको व्यापार व्यवसायहरु जोखिमको उचित मूल्यांकन गर्दै सीमित दरमा वृद्धि भैरहेको छ । नेपालको वित्तीय बजार, राजनैतिक माहोल, उद्योगधन्दा आदिको अवस्थामा अप्रत्यासित रुपमा उतार चढाव आइरहने भएकाले हामीले संधै नै हाम्रो ब्यापार व्यवसायमा सन्तुलित तथा दिगो वृद्धि गर्नु पर्छ भन्ने अवधारणा बनाउंदै आएका छौं ।

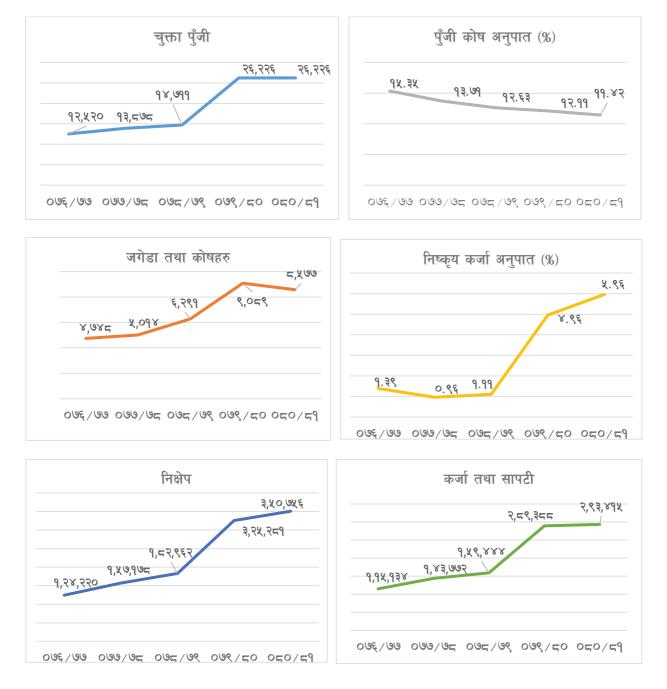

आ.व. २०७९/८० को तुलनामा आ.व.२०८०/८१ मा कर्जा, निक्षेप तथा लगानी कमशः १.३९ प्रतिशत, ७.८३ प्रतिशत र ४९.२८ प्रतिशतले वृद्धि भई रु. २ खर्ब ९३ अर्ब ४१ करोड, रु. ३ खर्ब ४० अर्ब ७४ करोड र रु. ६६ अर्ब ४० करोड पुग्न

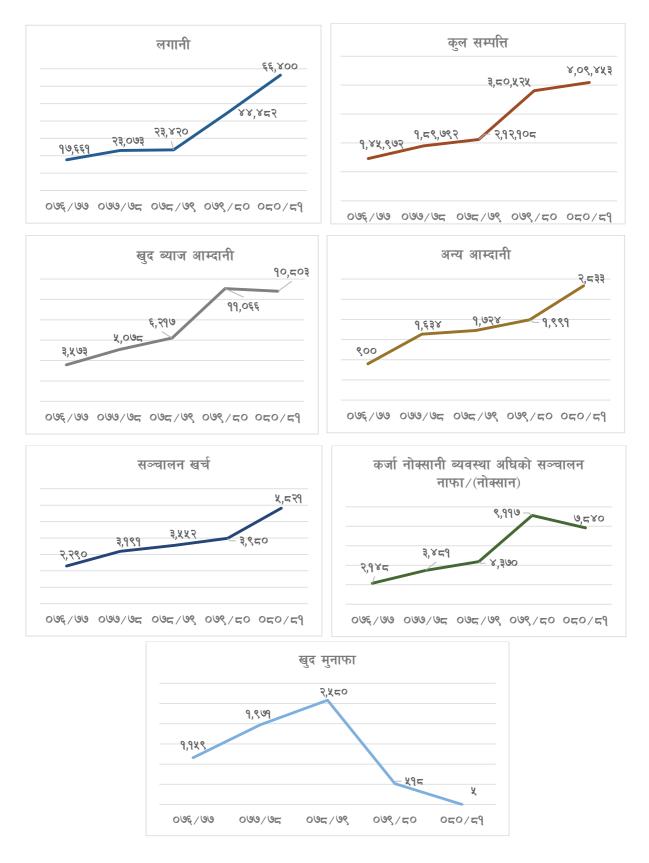

गएको छ । यसै गरी खुद ब्याज आम्दानीमा २.३८ प्रतिशतले संकुचन भई रु.१० अर्ब ८० करोड पुगेको छ भने संचालन खर्च रु.४ अर्ब ८२ करोड हुन पुगेको छ । आ.व. २०८०/८१ मा कर्जा नोक्सानी व्यवस्था अधिको संचालन मुनाफामा १४.०१ प्रतिशतले संकुचन भई रु. ७ अर्ब ८४ करोड हुन पुगेको छ । यद्यपी आ. व. २०७९/८० मा रु. ४१ करोड ७९ लाख रहेको खुद मुनाफा आ.व. २०८०/८१ मा घटेर रु. ४६ लाख ८ हजार ७ सय ४ पुग्न गएको छ ।

# (३) आर्थिक वर्ष २०८०/८१ को बैंकको कार्यसम्पादन समीक्षा तथा भविष्यमा गर्नुपर्ने कुराको धारणा :

समीक्षा अवधिको वित्तीय विवरणको विश्लेषण गर्दा बैंकको कारोबारमा सन्तुलित तवरबाट निरन्तर वृद्धि भईरहेको देखिन्छ । यसरी कारोबारमा भएको वृद्धि तथा आ.व. २०७९ / ८० को पौष १७ गते बैंकले नेपाल केडिट एण्ड कमर्स बैंकसंग गरेको मर्जरको कारण गत आ. व. को वासलातमा नेपाल क्रेडिट एण्ड कमर्स बैंकको पौष १७ सम्मको संचालन खर्च बैंकको नाफा नोक्सान हिसाबमा नभई संचित मुनाफामा घटाएको हुनाले यस आ.व. मा संचालन खर्च बढेको देखिएता पनि नेपाल क्रेडिट एण्ड कमर्स बैंकको पौष १७ सम्मको संचालन खर्च जोड्दा रु ४० करोडको वृद्धि देखिन्छ जुन ७.४२ प्रतिशतको वृद्धि हो । आ.व. २०८० / ८१ मा बैंकले आफ्नो पूँजी, निक्षेप, लगानी लगायतका क्षेत्रमा सन्तुलित प्रगति गरेको छ । यद्यपी कर्जा नोक्सानी व्यवस्था तथा निष्क्रिय कर्जा अनुपातमा भएको वृद्धिको कारण समीक्षा वर्षमा खुद मुनाफा घटन पुगेको छ ।

गत दुई आ.व. हरुमा बैंकले हासिल गरेका प्रगतिका केही सूचकांकहरु देहाय अनुसार प्रस्तुत गरिएको छ ।

#### INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUMARI BANK LIMITED

#### Report on the Audit of Consolidated Financial Statements

#### Opinion

We have audited the consolidated financial statements of Kumari Bank Limited and its subsidiaries (collectively referred to as the "Group"), which comprises the consolidated statement of financial position as at Ashad 31. 2081 (corresponding to July 15, 2024), the consolidated statement of profit or loss, the consolidated statement of other comprehensive income, the consolidated statement of changes in equity, the consolidated statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory information prepared in accordance with Nepal Financial Reporting Standards.

In our opinion, the financial statement of the Bank and the consolidated financial statements of the Group present fairly, in all material respect, the financial position of the Bank and the Group as at Ashad 31, 2081 (July 15, 2024) and its financial performance, the statement of other comprehensive income, the statement of changes in equity and the statement of cash flow statement for the year then ended in accordance with the Nepal Financial Reporting Standards.

#### Basis for Opinion

We have conducted our audit in accordance with Nepal Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the Institute of Chartered Accountant of Nepal's code of ethics for professional accountants (ICAN Code) together with the ethical requirements that are relevant to our audit of the financial statements in Nepal and we have fulfilled our ethical responsibilities in accordance with these requirements and the ICAN Code. We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period and include most significant assessed risks of material misstatement (whether or not due to fraud) identified including those which has greatest effect on overall audit strategy, allocation of resources in the audit and directing effort of the engagement team. We have summarized below key audit matters, in descending order of audit significance, in arriving at our audit opinion above, together with our key audit procedures to address those matters and, as required for public interest entities, our results from those procedures. These matters were addressed in the context of our audit of the consolidated financial statements as whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter How the Key Audit Matter was Addressed a. Impairment of Loans and Advances to Customers including Interest Income on Recognized Non-Performing Loans and Advances

Total Loans and Advances to Customers: NPR 268,431 million as on July 15, 2024 (NPR 270;937 million as on July 16 2023)

Total Impairment: NPR 23,054.87 million as on July 15, 2024 (NPR 16,165.65 million as on July 16, 2023) Total Impairment Charges: NPR 6,841.4 million in FY 2023-24 (NPR 8,115.8 million in FY 2022-23)

Total Interest Income: NPR 38,609.36 million in FY 2023-24 (NPR 34,112.24 million in FY 2022-23)

Allowances for impairment of loans and advances to customers have been made based on incurred loss model, Nepal Rastra Bank (NRB) regulations, as applicable. The Bank is required to apply its judgment and estimation to determine allowances impairment. In addition, assessment of for allowances for impairment is important as carve out provides for higher of the incurred loss model or NRB's directive.

We planned and tested the operating effectiveness of key controls established by the Bank to identify loss events and for determining the extent of provisioning required against non-performing loans and advances to customers.

The testing of controls include testing of controls over correct identification and classification of non-performing loans and advances to customers on time-based criteria; control over statistical models used to calculate the incurred loss in

The carrying value of the loans and advances to the customers can be materially misstating if the Bank's judgment and estimation are inappropriate.

In addition to above, interest income on loans and advances to customers has been recognized on accrual basis calculated by the Bank's core banking system and following the interest income recognition Guidelines 2019 issued by NRB. Though accrual basis of income recognition is prescribed in general, the guidelines require suspension of interest recognition on accrual basis for loans and advances with overdue of more than 12 months whereas for loan and advances with overdue interest/installment for 3 to 12 months, interest recognition on accrual basis is limited based on result of collateral testing as specified. Given the lack of system capability to suspend interest recognition based on overdue status of loan and fair value of collateral as well as review of fair valuation of collateral on regular basis, manual intervention will be required in interest recognition process and hence create risk of improper application of the guidelines and determination of fair value of the collateral. This may, in turn, have effect on recognition of interest income of the bank

Considering the significance of the above matter to the financial statements, we have identified this as a key audit matter for the current year audit.

**b.** Information Technology System and Control in The Bank's Information Technology environment is complex and involves a large number of independent and inter-dependent Information technology systems used in the Bank's operations for processing and recording a large volume of transactions at numerous locations. As a result, there is a high degree of reliance and dependency on such Information technology systems for the Bank's financial reporting process. Appropriate Information technology, general controls and application controls are required to ensure that such Information technology systems are able to process the data, as required, completely, accurately and consistently for reliable financial reporting.

The accuracy and reliability of the financial reporting process depends on the information technology systems and the related control environment, including: information technology general controls over user access management and change management across applications, networks, database, and operating systems; and Information technology automated application controls.

Due to the importance of the impact of the information technology systems and related control environment on the Bank's financial reporting process, we have identified testing of such information technology systems and related control environment as a key audit matter for the current year audit. accordance with incurred loss model; control over monitoring of loans and advances to customers with higher risk default; control over accurate computation and recording of provisions; and control over the governance and approval process related to provisions including continuous reassessment by the Bank's Management.

We selected sample of loans and advances to customers, checked installments of repayments and tested classification of non-performing loans and advances to customers based on the number of days overdue; evaluated the Bank's assessment for classification of loans and advances to customers as performing and non-performing based on repayment pattern, documentation, inspection and through discussion with the Bank's Management; assessment of control over mortgage value of loans and advances to customers.

We selected sample of loans and advances to customers and independently performed and reassessed whether there was a need to classify loans and advances to customers as nonperforming and compared our outcome to that prepared by the Bank and challenged various assumptions and judgments which were used by the Bank's Management.

We assessed the appropriateness and adequacy of disclosures against the relevant accounting standards and NRB requirements relating to allowances for impairment on loans and advances and interest recognition, and considered to be acceptable.

b. Information Technology System and Control impacting Financial Reporting in relation to the Bank

In assessing the integrity of the information technology systems, we involved our information technology experts to obtain an understanding of the information technology infrastructure and systems relevant to the Bank's financial reporting process for evaluation and testing of information technology general controls and Information technology automated controls existing in such information technology systems.

Access rights were tested over applications, operating systems, networks, and databases, which are relied upon for financial reporting. We also assessed the operating effectiveness of controls over granting, removal and periodical review of access rights. We further tested segregation of duties, including preventive controls to ensure that access to change applications; the operating system or databases in the production environment were granted only to authorized personnel.

Other areas that were assessed under the information technology control environment, included password policies, security configurations, and controls around change management. Bank has hired Information technology security service provider to regularly monitoring its system for any threat which we considered to be acceptable.

c. Investment Valuation, Identification, and Impair Investment of the bank comprises of investment in government bonds, T-bills, development bonds and investment in quoted and unquoted securities. The valuation of the aforesaid securities has been done in compliance with NFRS 9 and Directive number 8 of Unified NRB Directive 2079. The investment in the	Our audit approach regarding investment of the bank is based on the NRB Directives and NFRS issued by the Accounting Standard Board of Nepal. For the investment valuation that are done at Amortized Cost, we checked the EIR and amortization schedule on test basis. For the investment valued through OCI i.e., for quoted investment,
government and NRB bonds and T-bills has been done on Amortized cost and rest have been valued through Other Comprehensive Income. Given the varieties of treatments recommended for valuation of investment based on nature of cash flow, the business model adopted, complexity of calculations and the significance of amount involved in such investments, same has been considered as Key Audit Matter in our audit.	we relied on the Last transaction price in NEPSE as on 15.07.2024. And for the unquoted investment the fair value has been taken as the NRs.100. Further the income and bonus have been cross verified from Demat statement of the bank wherever applicable.

#### **Emphasis of Matter**

We draw attention to the note 5.1.2.a of the accompanying financial statements, which describes uncertainties due to overall adverse economy, a number of the loan assets have been significantly overdue which increases the credit risk of the bank. The bank has adopted various credit recovery and risk mitigation measures including legal recourse to mitigate adverse credit risk, however, in our judgement such measures do not completely eliminate such credit risk and hence impact NPA of the bank. In our professional judgement such credit related risk is fundamental to the user's understanding of financial statements.

We draw attention to note 5.31 of the accompanying financial statements relating to income taxes. The bank has adjusted prior period income tax related to bargain purchase gain arising from business combination of banks and financial institution via retained earnings.

Our audit opinion is not modified with respect to this matter.

#### Information Other than the Consolidated Financial Statement and Auditors' Report Thereon

The Bank's Management is responsible for other information. Other information comprises information included in the Management Letter, the Board of Directors and Chairman's Statement but does not include consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read other information and, in doing so, consider whether other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work, we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Other Matters**

We did not audit the financial statements and other financial information of subsidiaries Kumari Capital Limited and KBL Securities Limited, whose financial statements reflect total assets of NPR 840.17 million and NPR 226.12 million and net assets of NRP 492.67 million and NPR 206.82 million respectively as at Ashad 31, 2081 (corresponding to July 15, 2024) and total comprehensive income of NRP 182.34 million and NPR 26.69 million and net cash outflows of NRP 5.15 million and NPR 149.98 million respectively for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the financial statements in so far as it relates to the accounts and disclosures included in respect of this subsidiary, are based solely on the report of other auditors.

Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Nepal Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### Auditor's Responsibility for Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Nepal Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Nepal Standards on Auditing, we exercised professional judgment and maintained professional skepticism throughout the audit. We also:

- Identified and assessed the risk of material misstatement of the consolidated financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion of the effectiveness of the Bank and its subsidiaries' internal control.
- Evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Concluded on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cause significant doubt on the Bank's and its subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosure in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank and its subsidiaries to cease to continue as a going concern.
- Evaluated the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

We also provided those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicated with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Report on Other Legal and Regulatory Requirements

We have obtained information and explanations asked for which, to best of our knowledge and belief, were necessary for the purpose of our audit. In our opinion, consolidated statements of financial position, consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows, have been prepared in accordance with the procedure and format prescribed by Nepal Rastra Bank and are in agreement with the books of account maintained by the Bank. Proper books and records have been kept as per law, so far as it appears, from our examination of those books and records of the Bank and from the reports of the other auditors.

In our opinion, so far as it appears from our examination of the books, the Bank has maintained adequate capital funds and adequate provision for possible impairment of assets in accordance with the directives of Nepal Rastra Bank.

To the best of our information and according to explanations given to us and so far as it appears from our examination of the books of account of the Bank and the audit reports issued by other auditors necessary for the purpose of our audit, we have not come across cases where Board of Directors or any employees of the Bank and its subsidiaries have acted contrary to the provisions of law or committed any misappropriation relating to the accounts or caused loss or damage to the Group and violated any directives of Nepal Rastra Bank or acted in a manner to jeopardize the interest and security of the Bank, its depositors and investors.

# 2. BASIS OF PREPARATION

# 2.1 Statement of Compliance

The Financial Statements of Bank for the year ended 15th July, 2024 comprising Statement of Financial Position, Statement of Profit or loss and Other Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows and Notes to the Financial Statements (including Significant Accounting Policies), have been prepared in accordance with Nepal Financial Reporting Standards (hereafter referred as NFRS), laid down by the Institute of Chartered Accountants of Nepal and in compliance with the requirements of all applicable laws and regulations.

The bank has applied certain carve-outs which are as described in Notes to Accounts.

# 2.2 Reporting Period and Approval of Financial Statements

# a) Reporting Period

The Bank has prepared the financial statements in accordance with NFRS depicting financial performance for FY 2023/24 and financial position of 15th July 2024 and the comparatives of FY 2022/23.

#### b) Responsibility for Financial Statements

The preparation and presentation of Financial Statements including consolidated financial statements is the responsibility of the Board of Directors as per the governing provisions.

#### c) Approval of Financial Statements by Directors

The accompanied Financial Statements have been authorized to issue by the Board of Directors vide its resolution dated 2 January 2025 and recommended for its approval by the Annual General Meeting of the shareholders.

# 2.3 Functional and Presentation Currency

The Financial Statements of Bank and Group are presented in Nepalese Rupees (Rs.), which is the currency of the primary economic environment in which the Bank operates. There was no change in Bank's presentation and functional currency during the year under review.

# 2.4 Use of Estimates, Assumptions and Judgments

The preparation of Financial Statements in conformity with Nepal Financial Reporting Standards requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ due to these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

The most significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have most significant effect in the Financial Statements are as follows:

# 2.4.1 Going Concern

The Directors have made an assessment of Bank's ability to continue as a going concern and satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the Board is not aware of any material uncertainties that may provide significant doubt upon Bank's ability to continue as a going concern and they do not intend either to liquidate or to cease operations of it. Therefore, the Financial Statements continue to be prepared on the going concern basis.

#### 2.4.2 Fair Value of Financial Instruments

Where the fair values of financial assets and financial liabilities recorded in the statement of financial position can be derived from active markets, they are derived from observable market data. However, if this is not available, judgment is required to establish fair values. The valuation of financial instruments is described in more detail in Note 3.4.

#### 2.4.3 Impairment of Financial Assets – Loans and Advances

The Bank reviews its individually significant loans and advances at each statement of financial position date to assess whether an impairment loss should be recorded in the income statement. In particular, judgment of the management is required in the estimation of the amount and timing of future cash flows when determining the impairment loss. These estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the impairment allowance.

Loans and advances that have been assessed individually and found to be not impaired and all individually insignificant loans and advances are then assessed collectively, in groups of assets with similar risk characteristics, to determine whether provision should be made due to incurred loss events for which there is objective evidence, but the effects of which are not yet evident. The collective assessment takes in to account data from the loan portfolio such as levels of arrears, credit quality, portfolio size etc. and judgments based on current economic conditions.

# 2.4.4 Impairment of Financial Assets at Fair Value through OCI

The Bank reviews its debt securities classified as financial assets at fair value through OCI, at each reporting date to assess whether they are impaired. Objective evidence that a debt security that has been classified as financial assets at fair value through OCI is impaired includes among other things significant financial difficulty of the issuer, a breach of contract such as a default or delinquency in interest or principal payments etc. The Bank also records impairment charges on equity investments classified as financial assets at fair value through OCI where there is significant or prolonged decline in fair value below their cost. The determination of what is 'significant' or 'prolonged' requires judgment.

# 2.4.5 Taxation

The Bank is subject to income tax and judgment is required to determine the total provision for current, deferred and other taxes due to the uncertainties that exist with respect to the interpretation of the applicable tax laws, at the time of preparation of these Financial Statements. Deferred tax assets are recognized in respect of tax losses to the extent that it is probable that future taxable profit will be available against which the losses can be utilized. Judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits, together with future tax planning strategies.

# 2.4.6 Defined Benefit Plans

The cost of the defined benefit obligations and the present value of their obligations are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increments, mortality rates and possible future pension increments if any. Due to the long term nature of these plans, such estimates are subject to uncertainty. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of Nepal government bonds with maturities corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables. Future salary increment and pension increment are based on expected future salary increment rates of the Bank.

# 2.4.7 Fair Value of Property, Plant and Equipment

The freehold land and buildings of the bank are presented at cost. Since the property, plant and equipment are not reflected at fair value, no revaluation has been carried at the reporting date.

# 2.4.8 Useful Life-time of the Property, Plant and Equipment

The Bank is following the cost model for recognition of Property, Plant and Equipment. The Bank reviews the residual values, useful lives and methods of depreciation of property, plant and equipment at each reporting date. Judgment of the management is exercised in the estimation of these values, rates, methods and hence they are subject to uncertainty.

# 2.4.9 Commitments and Contingencies

All discernible risks are accounted for in determining the amount of all known liabilities. Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be reliably measured. Contingent liabilities are not recognized in the Statement of Financial Position but are disclosed unless they are remote.

# 2.4.10 Classification of Investment Properties

Management requires using its judgment to determine whether a property qualifies as an investment property. The Bank has developed criteria so it can exercise its judgment consistently. A property that is held to earn rentals or for capital appreciation or both and which generates cash flows largely independently of the other assets held by the Bank is accounted for as investment properties. On the other hand, a property that is used for operations or in the process of providing services or for administrative purposes and which do not directly generate cash flows as a standalone assets are accounted for as property, plant and equipment. The Bank assesses on an annual basis the accounting classification of its properties taking into consideration the current use of such properties.

# **2.5.** Changes in Accounting Policies

There are no changes in accounting policies and methods of computation since the publication of annual financial statements for the year ended on July 16, 2024, unless otherwise indicated.

# 2.6 Discounting

When the realization of assets and settlement of obligation is for more than one year, the Bank considers the discounting of such assets and liabilities where the impact is material. Various internal and external factors have been considered for determining the discount rate to be applied to the cash flows of company.

Service fees charged by the bank on loans and advances unless immaterial or impracticable to determine reliably is to be considered for computation of Effective Interest Rate. However, bank has opted the Carve-out (optional) pronounced by Institute of Chartered Accountants of Nepal (ICAN) on 10th November 2018; as per the notice issued by ICAN regarding the extension of a year time for its implementation.

Defined Benefit Plan; that includes gratuity has been determined by considering discount rate as the average yield on government bonds issued during the period having maturity of five years or more.

# 2.7 Materiality and Aggregation

In compliance with Nepal Accounting Standard - NAS 01 (Presentation of Financial Statements), each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or functions too are presented separately unless they are immaterial. Financial Assets and Financial Liabilities are offset and the net amount reported in the Statement of Financial Position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. Income and expenses are not offset in the Statement of Profit or Loss unless required or permitted by an Accounting Standard.

# 2.8 Comparative Information

The Financial Statement of the Bank provides comparative information in respect of previous periods. The accounting policies have been consistently applied by Bank with those of the previous financial year in accordance with NAS 01 Presentation of Financial Statements, except those which had to be changed as a result of application of the new NFRS or expiry of the carve out period. Further, comparative information is reclassified wherever necessary to comply with the current presentation.

# 3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these Financial Statements, and deviations if any have been disclosed accordingly.

# 3.1 Basis of Measurement

The Financial Statements of Bank have been prepared on the historical cost basis, except for the following material items in the Statement of Financial Position:

- > Available for sale investments (quoted) are measured at fair value.
- Liabilities for defined benefit obligations are recognized at the present value of the defined benefit obligation less the fair value of the plan assets.
- Financial assets and financial liabilities held at amortized cost are measured using a rate that is a close approximation of effective interest rate opting the available Carve Out pronounced by Institute of Chartered Accountants of Nepal.

# 3.2 Basis of consolidation

# a. Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method as per the requirements of Nepal Financial Reporting Standard - NFRS 03 (Business Combinations). The Bank measures goodwill as the fair value of the consideration transferred including the recognized amount of any non-controlling interest in the acquiree, less the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the merger date. When the excess is positive, this will result into goodwill.

During the fiscal year 2079-80, the Bank has merged Nepal Commerce and Credit Bank Limited. Accounting for merger of Nepal Commerce and Credit Bank Limited has been done as per NFRS 3 – Business Combination and Guidance Note on the same issued by ICAN dated July 31, 2022.

# b. Non-controlling interest (NCI)

Non-controlling interest (NCI), also known as minority interest, is an ownership position whereby a shareholder owns less than 50% of outstanding shares and has no control over decisions.

Since, the subsidiaries are 100% owned, there is no case of NCI for the bank.

# c. Subsidiaries

Subsidiaries are entities that are controlled by the Bank. The Bank is presumed to control an investee when it is exposed or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. At each reporting date the Bank reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more elements of control mentioned above.

The Financial Statements of Subsidiaries are fully consolidated from the date on which control is transferred to the Bank and continue to be consolidated until the date when such control ceases. The Financial Statements of the Bank's Subsidiaries are prepared for the same reporting period as per the Bank, using consistent accounting policies.

The cost of acquisition of a Subsidiary is measured as the fair value of the consideration, including contingent consideration, given on the date of transfer of title. The acquired identifiable assets, liabilities are measured at their fair values at the date of acquisition. Subsequent to the initial measurement, the Bank continues to recognize the investments in Subsidiaries at cost.

When a Subsidiary is acquired or sold during the year, operating results of such Subsidiary is included from the date of acquisition or to the date of disposal.

This Subsidiary of the Bank has been incorporated in Nepal.

# d. Associates

An associate is an entity over which the investor has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee without the power to control or jointly control those policies.

An associate company, in its broadest sense, is a corporation in which a parent company possesses a stake. Usually, the parent company owns only a minority stake of the corporation, as opposed to a subsidiary company, where a majority stake is owned. The accounting treatment for consolidation of associates is as per Equity method while it is shown at cost in the standalone financial statement of the bank as per NAS 27.

# e. Loss of Control

When the Bank loses control over a Subsidiary, it derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position. The Bank recognizes any investment retained in the former subsidiary at its fair value when control is lost and subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant NFRSs. That fair value shall be regarded as the fair value on initial recognition of a financial asset in accordance with relevant NFRS or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture. The Bank recognizes the gain or loss associated with the loss of control attributable to the former controlling interest.

# f. Transaction elimination on consolidation

Intra group balances and transactions, any unrealized income and expenses arising from intra group transactions, are eliminating in preparing the consolidated financial statements. Unrealized gains/losses arising from transactions with equity accounted investees are eliminated against the investments to the extent of group interest of investee.

# 3.3 Cash and cash equivalent

Cash and Cash Equivalents include cash in hand, balances with banks, placements with banks and money at call and at short notice with original maturity less than three months from the date of acquisition date that are subject to an insignificant risk of changes in their fair value, and are used for short term commitments.

Details of the Cash and Cash Equivalents are given in Note 4.1 to the Financial Statements.

# 3.4 Financial Assets and financial liabilities

# a. Date of Recognition

All financial assets and liabilities are initially recognized on the trade date, i.e. the date that Bank becomes a party to the contractual provisions of the instrument. This includes 'regular way trades. Regular way trade means purchases or sales of financial assets that required delivery of assets within the time frame generally established by regulation or convention in the market place.

The classification of financial instruments at the initial recognition depends on their purpose and characteristics and the management's intention in acquiring them.

# b. Recognition and Initial Measurement of Financial Instruments

All financial instruments are measured initially at their fair value plus transaction costs that are directly attributable to acquisition or issue of such financial instruments except in the case of such financial assets and liabilities at fair value through profit or loss, as per the Nepal Accounting Standard - NAS 39 (Financial Instruments: Recognition and Measurement). Transaction cost in relation to financial assets and financial liabilities at fair value through profit or loss are dealt with the Statement of Profit or Loss.

# **Classification and Subsequent Measurement of Financial Instruments**

# **Classification and Subsequent Measurement of Financial Assets**

At the inception, a financial asset is classified into one of the following:

- a. Financial assets at fair value through profit or loss
  - i. Financial assets held for trading
  - ii. Financial assets designated at fair value through profit or loss
- b. Financial assets at amortized cost
- c. Loans and Receivables
- d. Financial assets at fair value through OCI

The subsequent measurement of financial assets depends on their classification.

#### a. Financial Assets at Fair Value through Profit or Loss

A financial asset is classified as fair value through profit or loss if it is held for trading or is designated at fair value through profit or loss.

#### i. Financial Assets Held for Trading

Financial assets are classified as held for trading if they are acquired principally for the purpose of selling or repurchasing in the near term or holds as a part of a portfolio that is managed together for short-term profit or position taking. This category also includes derivative financial instruments entered into by Bank that are not designated as hedging instruments in hedge relationships as defined by Nepal Accounting Standards NAS 39 (Financial Instruments: Recognition and Measurement).

Financial assets held for trading are recorded in the Statement of Financial Position at fair value. Changes in fair value are recognized in 'Other Operating income'. Dividend income is recorded in 'Net trading income' when the right to receive the payment has been established.

Bank evaluates its held for trading asset portfolio, other than derivatives, to determine whether the intention to sell them in the near future is still appropriate. When Bank is unable to trade these financial assets due to inactive markets and management's intention to sell them in the foreseeable future significantly changes, Bank may elect to reclassify these financial assets.

Financial assets held for trading include instruments such as government securities and equity instruments that have been acquired principally for the purpose of selling or repurchasing in the near term.

# ii. Financial Assets Designated at Fair Value through Profit or Loss

Bank designates financial assets at fair value through profit or loss in the following circumstances:

- Such designation eliminates or significantly reduces measurement or recognition inconsistency that would otherwise arise from measuring the assets
- The assets are part of a group of Financial assets, financial liabilities or both, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy
- The asset contains one or more embedded derivatives that significantly modify the cash flows that would otherwise have been required under the contract.

Financial assets designated at fair value through profit or loss is recorded in the Statement of Financial Position at fair value. Changes in fair value are recorded in 'Net gain or loss on financial instruments designated at fair value through profit or losses' in the Statement of Profit or Loss. Interest earned is accrued under 'Interest income', using the effective interest rate method, while dividend income is recorded under 'Other operating income' when the right to receive the payment has been established.

The Bank has not designated any financial assets upon initial recognition as designated at fair value through profit or loss.

# b. Financial Assets Available for Sale

Financial assets at amortized cost are non-derivative financial assets with fixed or determinable payments and fixed maturities which the Bank has the intention and ability to hold to maturity. After the initial measurement, financial assets at amortized cost are subsequently measured at amortized cost using the effective interest rate, less impairment. The amortization is included in 'Interest income' in the Statement of Profit or Loss. The losses arising from impairment of such investments are recognized in the Statement of Profit or Loss.

# c. Loans and Receivables from Customers

Loans and receivables include non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than:

- Those that the Bank intends to sell immediately or in the near term and those that the Bank, upon initial recognition, designates as fair value through profit or loss
- > Those that the Bank, upon initial recognition, designates as available for sale
- Those for which the Bank may not recover substantially all of its initial investment through contractual cash flows, other than because of credit deterioration.

Loans and Advances mainly represent loans and advances to customers, Banking and Financial Institutions. After initial measurement, loans and receivables are subsequently measured at amortized cost using a rate that closely approximates effective interest rate, less allowance for impairment. Within this category, loans and advances to the customers have been recognized at amortized cost using the method that very closely approximates effective interest rate method opting the Carve Out pronounced by Institute of Chartered Accountants of Nepal (ICAN); implementation of which has been extended by ICAN through notice issued by regarding the implementation of EIR. The amortization is included in 'Interest Income' in the Statement of Profit or Loss. The losses arising from impairment are recognized in 'Impairment charge / reversal for loans and other losses' in the Statement of Profit or Loss.

# d. Financial assets at fair value through OCI

Financial assets at fair value through OCI include equity and debt securities. Equity Investments classified as 'Financial assets at fair value through OCI' are those which are neither classified as 'Held for Trading' nor 'Designated at fair value through profit or loss'. Debt securities in this category are intended to be held for an indefinite period of time and may be sold in response to need for liquidity or in response to changes in the market conditions.

After initial measurement, financial assets at fair value through OCI are subsequently measured at fair value. Unrealized gains and losses are recognized directly in equity through 'Other comprehensive income/expense' in the 'Fair value reserve'. Where Bank holds more than one investment in the same security, they are deemed to be disposed of on a first-in-first-out basis. Interest earned whilst holding financial assets at fair value through OCI is reported as 'Interest income' using the effective interest rate. Dividend earned whilst holding financial assets at fair value through OCI are recognized in the Statement of Profit or Loss as 'other operating income' when the right to receive the payment has been established. The losses arising from impairment of such investments are recognized in the Statement of Profit or Loss under 'Impairment charge for loans and other losses' and removed from the 'Fair value reserve'.

Financial assets at fair value through OCI that are monetary securities denominated in a foreign currency – translation differences related to changes in the amortized cost of the security and other changes in the carrying amount are recognized in other comprehensive income.

In the normal course of business, the fair value of a financial instrument on initial recognition is the transaction price (that is, the fair value of the consideration given or received). In certain circumstances, however, the fair value will be based on other observable current market transactions in the same instrument, without modification or repackaging, or on a valuation technique whose variables include only data from observable markets, such as interest rate yield, option volatilities and currency rates. When such evidence exists, the Bank recognizes a trading gain or loss on inception of the financial instrument, being the difference between the transaction price and fair value.

When unobservable market data have a significant impact on the valuation of financial instruments, the entire initial difference in fair value from the transaction price as indicated by the valuation model is not recognized immediately in the income statement.

Instead, it is recognized over the life of the transaction on an appropriate basis, when the inputs become observable, the transaction matures or is closed out, or when the Bank enters into an offsetting transaction.

# **Financial Liabilities**

# **Classification and Subsequent Measurement of Financial Liabilities**

At the inception, Bank determines the classification of its financial liabilities. Accordingly, financial liabilities are classified as:

- a. Financial liabilities at fair value through profit or loss
  - i. Financial liabilities held for trading
  - ii. Financial liabilities designated at fair value through profit or loss
- b. Financial liabilities at amortized cost

# Financial Liabilities at Fair Value through Profit or Loss

Financial Liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value and changes therein are recognized in profit or loss.

# (i) Financial Liabilities Held for Trading

Financial liabilities are classified as held for trading if they are acquired principally for the purpose of selling or repurchasing in the near term or holds as a part of a portfolio that is managed together for short-term profit or position taking. This category includes derivative financial instrument entered into by Bank that are not designated as hedging instruments in hedge relationships as defined by Nepal Accounting Standard - NAS 39 (Financial Instruments: Recognition and Measurement).

# (ii) Financial Liabilities Designated at Fair Value through Profit or Loss

Bank designates financial liabilities at fair value through profit or loss at following circumstances:

Such designation eliminates or significantly reduces measurement or recognition inconsistency that would otherwise arise from measuring the liabilities.

- The liabilities are part of a group of Financial assets, financial liabilities or both, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy
- > The liability contains one or more embedded derivatives that significantly modify the cash flows that would otherwise have been required under the contract.

# Financial Liabilities at Amortized Cost

Financial instruments issued by Bank that are not classified as fair value through profit or loss are classified as financial liabilities at amortized cost, where the substance of the contractual arrangement results in Bank having an obligation either to deliver cash or another financial asset to another Bank, or to exchange financial assets or financial liabilities with another Bank under conditions that are potentially unfavorable to the Bank or settling the obligation by delivering variable number of Bank's own equity instruments.

After initial recognition, such financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Amortization is included in 'Interest Expenses' in the Statement of Profit or Loss. Gains and losses are recognized in the Statement of Profit or Loss when the liabilities are derecognized.

# Reclassification

# (i) Reclassification of Financial Instruments 'At fair value through profit or loss',

Bank does not reclassify derivative financial instruments out of the fair value through profit or loss category when it is held or issued.

Non-derivative financial instruments designated at fair value through profit or loss upon initial recognition is not reclassified subsequently out of fair value through profit or loss category.

# (ii) Reclassification of 'Financial assets at fair value through OCI

Bank may reclassify financial assets out of financial assets at fair value through OCI category as a result of change in intention or ability or in rare circumstances that a reliable measure of fair value is no longer available.

A financial asset classified as financial assets at fair value through OCI that would have met the definition of loans and receivables at the initial recognition may be reclassified out of financial assets at fair value through OCI category to the loans and receivables category if Bank has the intention and ability to hold such asset for the foreseeable future or until maturity.

The fair value of financial instruments at the date of reclassification is treated as the new cost or amortized cost of the financial instrument after reclassification. Difference between the new amortized cost and the maturity value is amortized over the remaining life of the asset using the effective interest rate. Any gain or loss already recognized in Other Comprehensive Income in respect of the reclassified financial instrument is accounted as follows:

# a) Financial assets with fixed maturity

Gain or loss recognized up to the date of reclassification is amortized to profit or loss over the remaining life of the investment using the effective interest rate. If the financial asset is subsequently impaired, any previous gain or loss that has been recognized in other comprehensive income is reclassified from equity to profit or loss.

# b) Financial assets without fixed maturity

Gain or loss recognized up to the date of reclassification is recognized in profit or loss only when the financial asset is sold or otherwise disposed of. If the financial asset is subsequently impaired, any previous gain or loss that has been recognized in other comprehensive income is reclassified from equity to profit or loss.

If a financial asset is reclassified, and if Bank subsequently increases its estimates of future cash receipts as a result of increased recoverability of those cash receipts, the effect of that increase is recognized as an adjustment to the effective interest rate from the date of the change in estimate rather than an adjustment to the carrying amount of the asset at the date of change in estimate.

# (iii) Reclassification of 'Held to Maturity' Financial Instruments

As a result of a change in intention or ability, if it is no longer appropriate to classify an investment as amortized at cost, Bank may reclassify such financial assets as at fair value through OCI and re- measured at fair value. Any difference between the carrying value of the financial asset before reclassification and fair value is recognized in equity through other comprehensive income.

# c. De-recognition of Financial Assets and Liabilities

# **De-recognition of Financial Assets**

Bank derecognizes a financial asset (or where applicable a part of financial asset or part of a group of similar financial assets) when:

- > The rights to receive cash flows from the asset have expired; or
- > Bank has transferred its rights to receive cash flows from the asset or
- Bank has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either Bank has transferred substantially all the risks and rewards of the asset or it has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

# **De-recognition of Financial Liabilities**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in profit or loss.

# **Repurchase and Reverse Repurchase Agreements**

Securities sold under agreement to repurchase at a specified future date are not de-recognized from the Statement of Financial Position as the Bank retains substantially all of the risks and rewards of ownership. The corresponding cash received is recognized in the Statement of Financial Position as a liability with a corresponding obligation to return it, including accrued interest under 'Securities sold under repurchase agreements', reflecting the transaction's economic substance to the Bank. The difference between the sale and repurchase prices is treated as interest expense and is accrued over the life of the agreement using the effective interest rate. When the bank has the right to sell or re-pledge the securities, the Bank

reclassifies those securities in its Statement of Financial Position as 'Financial assets held for trading' pledged as collateral or 'Financial assets at fair value through OCI' pledged as collateral, as appropriate.

Conversely, securities purchased under agreements to resell at future date are not recognized in the Statement of Financial Position. The consideration paid, including accrued interest, is recorded in the Statement of Financial Position, under "Reverse repurchase agreements' reflecting the transaction's economic substance to the Bank. The difference between the purchase and resale prices is recorded as 'Interest income' and is accrued over the life of the agreement using the effective interest rate. If securities purchased under agreement to resell are subsequently sold to third parties, the obligation to return the securities is recorded as a short sale within 'Financial liabilities held for trading' and measured at fair value with any gains or losses included in 'Net trading income'.

# **Offsetting of Financial Instruments**

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when and only when Bank has a legal right to set off the recognized amounts and it intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses are presented on a net basis only when permitted under NFRSs or for gains and losses arising from a group of similar transaction such as in trading activity.

#### **Amortized Cost Measurement**

The Amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

# **Fair Value Measurement**

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of principal market, in the most advantageous market for asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets.
- Level 2 Valuation technique using observable inputs: financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.
- Level 3 Valuation technique with significant unobservable inputs: financial instruments valued using valuation techniques where one or more significant inputs are unobservable.

# Level 1

When available, the Bank measures the fair value of an instrument using quoted prices in an active market for that instrument or dealer price quotations, without any deduction for transaction costs.

A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

# Level 2

If a market for a financial instrument is not active, then the Bank establishes fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties (if available), reference to the current fair value of other instruments that are substantially the same, discounted cash flow analysis and option pricing models.

The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to the Group, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments.

# Level 3

Certain financial instruments are recorded at fair value using valuation techniques in which current market transactions or observable market data are not available. Their fair value is determined using a valuation model that has been tested against prices or inputs to actual market transactions and using the Bank's best estimate of the most appropriate model assumptions.

The fair value of a demand deposit is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest best use or by selling it to another market participant that would use the asset in its highest and best use.

The Bank recognizes transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

# d. Impairment of Financial Asset

At each reporting date, Bank assesses whether there is any objective evidence that a financial asset or group of financial assets not carried at fair value through profit or loss is impaired. A financial asset or group of financial assets is deemed to be impaired if and only if there is objective evidence of impairment as a result of one or more events, that have occurred after the initial recognition of the asset (an 'incurred loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Objective evidence of impairment may include: indications that the borrower or a group of borrowers is experiencing significant financial difficulty; the probability that they will enter bankruptcy or other financial reorganization; default or delinquency in interest or principal payments; and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

#### a. Impairment of Financial Assets carried at Amortized Cost

For financial assets carried at amortized cost, such as amounts due from banks, held to maturity investments etc., Bank first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant or collectively for financial assets that are not individually significant. In the event, Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, financial assets in a group with similar credit risk characteristics are collectively assesses for impairment. However, assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is an objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the income statement. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current rate closely approximates effective interest rate. If the Bank has reclassified trading assets to loans and advances, the discount rate for measuring any impairment loss is the new closely approximates effective interest rate determined at the reclassification date. The calculation of the present value of the estimated future cash flows of collateralized financial assets reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

#### Individually Assessed Financial Assets

The criteria used to determine whether there is objective evidence of impairment include and not limited to:

- > Known Cash Flow difficulties experienced by the borrowers:
- > Past due contractual payments of either principal or interest;
- Breach of loan covenants or conditions;
- > The probability that the borrower will enter bankruptcy or other financial reorganization; and
- > A significant downgrading in credit rating by an external credit rating agency.

If there is objective evidence that an impairment loss on financial assets measured at amortized cost has been incurred, the amount of the loss is measured by discounting the expected future cash flows of a financial asset at its original effective interest rate and comparing the resultant present value with the financial asset's current carrying amount. The impairment allowances on individually significant accounts are reviewed more regularly when circumstances require. This normally encompasses re-assessment of the enforceability of any collateral held and the timing and amount of actual and anticipated receipts. Individually assessed impairment allowances are only released when there is reasonable and objective evidence of reduction in the established loss estimate. Interest on impaired assets continues to be recognized through the unwinding of the discount.

Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Bank. If, in a subsequent year, the amount of the estimated

impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a future write off is later recovered, the recovery is credited to the impairment charges for loans and other losses.

When impairment losses are determined for those financial assets where objective evidence of impairment exists, the following common factors are considered:

- Bank's aggregate exposure to the customer;
- > The viability of the customer's business model and their capacity to trade successfully out of financial difficulties and generate sufficient cash flows to service debt obligations;
- > The amount and timing of expected receipts and recoveries;
- > The extent of other creditors 'commitments ranking ahead of, or pari-pasu with the Bank and the likelihood of other creditors continuing to support the company;
- > The realizable value of security and likelihood of successful repossession;

# **Collectively Assessed Financial Assets**

Impairment is assessed on a collective basis in two circumstances:

- To cover losses which have been incurred but have not yet been identified on loans subject to individual assessment; and
- > For homogeneous groups of loans that is not considered individually significant.

# Incurred but not yet identified impairment

Individually assessed financial assets for which no evidence of loss has been specifically identified on an individual basis are grouped together according to their credit risk characteristics for the purpose of calculating an estimated collective loss. This reflects impairment losses that the bank has incurred as a result of events occurring before the reporting date, which the Bank is not able to identify on an individual loan basis and that can be reliably estimated.

These losses will only be individually identified in the future. As soon as information becomes available which identifies losses on individual financial assets within the group, those financial assets are removed from the group and assessed on an individual basis for impairment.

The collective impairment allowance is determined after taking into account:

- > Historical Loss Experience in portfolios of similar credit risk; and
- Management's experienced judgment as to whether current economic and credit conditions are such that the actual level of inherent losses at the reporting date is like to be greater or less than that suggested by historical experience.

# Homogeneous groups of Financials Assets

Statistical methods are used to determine impairment losses on a collective basis for homogenous groups of financial assets. Losses in these groups of financial assets are recorded on an individual basis when individual financial assets are written off, at which point they are removed from the group.

Bank uses the following method to calculate historical loss experience on collective basis:

After grouping of loans on the basis of homogeneous risks, the Bank uses net flow rate method. Under this methodology the movement in the outstanding balance of customers into default categories over the periods is used to estimate the amount of financial assets that will eventually be irrecoverable, as a result of the events occurring before the reporting date which the Bank is not able to identify on an individual loan basis.

Under this methodology, loans are grouped into ranges according to the number of days in arrears and statistical analysis is used to estimate the likelihood that loans in each range will progress through the various stages of delinquency and ultimately prove irrecoverable.

Current economic conditions and portfolio risk factors are also evaluated when calculating the appropriate level of allowance required covering inherent loss. These additional macro and portfolio risk factors may include:

- Recent loan portfolio growth and product mix
- Unemployment rates
- Gross Domestic Production (GDP)Growth
- > Inflation
- Interest rates
- Changes in government laws and regulations
- Property prices
- Payment status

But, the amount of provision to be created against Loans and Advances shall be higher of the following two amounts:

- i) Impairment calculated as per Impairment Assessment Methodology as described above or,
- ii) Loan Loss Provision calculated as per the provisions of Unified Directives issued by Nepal Rastra Bank.

# **Reversal of Impairment**

If the amount of an impairment loss decreases in a subsequent period and the decrease can be related objectively to an event occurring after the impairment was recognized, the excess is written back by reducing the financial asset impairment allowance account accordingly. The write-back is recognized in the Statement of Profit or Loss.

#### Write-off of Financial Assets measured at Amortized Cost

Financial assets (and the related impairment allowance accounts) are normally written off either partially or in full, when there is no realistic prospect of recovery. Where financial assets are secured, this is generally after receipt of any proceeds from the realization of security.

#### **Impairment of Rescheduled Loans and Advances**

Where possible, the Bank seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms and the loan is no longer considered past due. Management continually reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual impairment assessment, calculated using the loan's original effective interest rate (EIR).

# **Collateral Valuation**

The Bank seeks to use collateral, where possible, to mitigate its risks on financial assets. The collateral comes in various forms such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. The fair value of collateral is generally assessed, at a minimum, at inception and based on the guidelines issued by the central bank (Nepal Rastra Bank). Non-financial collateral, such as real estate, is valued based on data provided by third parties such as independent valuator and audited financial statements.

# Collateral Repossessed or Where Properties Have Devolved To the Bank

Legally Repossessed Collateral represents Non-Financial Assets acquired by the Bank in settlement of the overdue loans. The assets are initially recognized at fair value when acquired. The Bank's policy is to determine whether a repossessed asset is best used for its internal operations or should be sold. The proceeds are used to reduce or repay the outstanding claim. The immovable property acquired by foreclosure of collateral from defaulting customers, or which has devolved on the Bank as part settlement of debt, has not been occupied for business use.

These assets are shown as Legally Repossessed Collateral under "Investment Property."

# b. Impairment of Financial assets at fair value through OCI

For financial assets at fair value through OCI, Bank assesses at each reporting date whether there is objective evidence that an investment is impaired.

In the case of debt instruments, Bank assesses individually whether there is objective evidence of impairment based on the same criteria as financial assets carried at amortized cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in the Statement of Profit or Loss. Future interest income is based on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to a credit event occurring after the impairment loss was recognized, the impairment loss is reversed through the Statement of Profit or Loss.

In the case of equity investments classified as financial assets at fair value through OCI, objective evidence would also include a 'significant' or 'prolonged' decline in the fair value of the investment below its cost. Where there is evidence of impairment, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in Statement of Profit or Loss is removed from equity and recognized in the Statement of Profit or Loss. However, any subsequent increase in the fair value of an impaired equity security that is classified as financial assets at fair value through OCI is recognized in other comprehensive income.

Bank writes-off certain financial assets at fair value through OCI when they are determined to be uncollectible.

# 3.5. Trading Assets

Financial assets such as government securities, equity etc. held for short term with an intention to trade have been classified as trading assets. Trading assets are measured at fair value with any changes in fair value being recognized in Profit or Loss.

# 3.6. Derivative assets and derivative liabilities

Derivative financial instruments such as forward foreign exchange contracts are valued using a valuation technique with market observable inputs. The most frequently applied valuation technique is forward pricing model which incorporates various inputs including foreign exchange spot and forward premiums.

Forward contracts are the contracts to purchase or sell a specific quantity of a financial instrument, a commodity, or a foreign currency at a specified price determined at the outset, with delivery or settlement at a specified future date. Settlement is at maturity by actual delivery of the item specified in the contract, or by a net cash settlement.

All freestanding contracts that are considered derivatives for accounting purposes are carried at fair value on the statement of financial position regardless of whether they are held for trading or non-trading purposes. Changes in fair value on derivatives held for trading are included in net gains/ (losses) from financial instruments in fair value through profit or loss on financial assets/ liabilities at fair value through profit or loss.

# 3.7. Property and Equipment

# Recognition

Property, plant and equipment are tangible items that are held for use in the production or supply of services, for rental to others or for administrative purposes and are expected to be used during more than one period. The Bank applies the requirements of the Nepal Accounting Standard - NAS 16 (Property, Plant and Equipment) in accounting for these assets. Property, plant and equipment are recognized if it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the asset can be measured reliably measured.

The freehold land and buildings of the bank are measured at cost and not reflected at fair value and no revaluation has been carried at the reporting date.

Fixed assets except land are stated at acquisition cost less accumulated depreciation. Acquisition cost includes expenditures that are directly attributable to the acquisition of the assets.

# Measurement

An item of property, plant and equipment that qualifies for recognition as an asset is initially measured at its cost. Cost includes expenditure that is directly attributable to the acquisition of the asset and cost incurred subsequently to add to, replace part of an item of property, plant & equipment. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for its intended use and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalized as part of computer equipment. When parts of an item of property or equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Assets with a value less than Rs. 10,000 are charged off as a revenue expense irrespective of its useful life in the year of purchase.

Leasehold improvements are capitalized at cost and amortized over the period of five years. The amount of amortization is charged as revenue expenses.

# **Cost Model**

Property and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Such cost includes the cost of replacing part of the equipment when that cost is incurred, if the recognition criteria are met.

# **Revaluation Model**

The Bank has not applied the revaluation model to the any class of freehold land and buildings or other assets. Such properties are carried at a previously recognized GAAP Amount.

However, the assets and liabilities transferred from the business combination of Nepal Commerce and Credit Bank Limited is recognized at fair value.

# **Subsequent Cost**

The subsequent cost of replacing a component of an item of property, plant and equipment is recognized in the carrying amount of the item, if it is probable that the future economic benefits embodied within that part will flow to the Bank and it can be reliably measured. The cost of day to day servicing of property, plant and equipment are charged to the Statement of Profit or Loss as incurred.

# **De-recognition**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use. The gain or loss arising from de-recognition of an item of property, plant and equipment is included in the Statement of Profit or Loss when the item is derecognized. When replacement costs are recognized in the carrying amount of an item of property, plant and equipment, the remaining carrying amount of the replaced part is derecognized. Major inspection costs are capitalized. At each such capitalization, the remaining carrying amount of the previous cost of inspections is derecognized. The gain or losses arising from de-recognition of an item of property, plant and equipment is included in profit or loss when the item is derecognized.

# Depreciation

Depreciation is calculated by on the basis of useful life of the asset on cost or carrying value of property, plant & equipment other than freehold land.

The depreciable amount of an item of property, plant and equipment is allocated on systematic basis over its useful life, under written down value method of depreciation except for Leasehold properties and is depreciated as follows:

Asset Category	Estimated Useful Life of Asset (Years) FY 2080/81	Estimated Useful Life of Asset (Years) FY 2079/80
Buildings	40 Years	40 Years
Vehicles	10 Years	10 Years
Office Equipment	8 Years	8 Years
Furniture & Fixtures (Metal & Wooden)	8 Years	8 Years
Computer Hardware	8 Years	8 Years
Battery	6 Years	6 Years
Leasehold Properties	5 Years	5 Years

Salvage Value is assumed to be 10% of the cost of the asset in case of asset depreciated on Diminishing Value Method.

Depreciation on newly acquired property and equipment are charged from the next month of booking. Depreciation of property and equipment ceases when it is derecognized at the time of its disposal. For the expenses allowance for tax purpose; depreciation is provided as per Income Tax Act. The differences in the calculation of depreciation as per financial and as per Income tax act is taken up for calculation of deferred tax.

#### **Changes in Estimates**

The asset's residual values, useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each financial year end.

#### **Capital Work in Progress**

These are expenses of capital nature directly incurred in the construction of buildings, major plant and machinery and system development, awaiting capitalization. Capital work-in-progress would be transferred to the relevant asset when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Capital work-in-progress is stated at cost less any accumulated impairment losses.

#### **Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of an asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Bank incurs in connection with the borrowing of funds.

#### **De-recognition**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use. The gain or loss arising from de-recognition of an item of property, plant and equipment is included in the Statement of Profit or Loss when the item is derecognized. When replacement costs are recognized in the carrying amount of an item of property, plant and equipment, the remaining carrying amount of the replaced part is derecognized. Major inspection costs are capitalized. At each such capitalization, the remaining carrying amount of the previous cost of inspections is derecognized.

# **3.8. Intangible Assets**

#### Recognition

An intangible asset is an identifiable non-monetary asset without physical substance, held for use in the production or supply of goods or services, for rental to others or for administrative purposes. An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably. An intangible asset is initially measured at cost. Expenditure incurred on an intangible item that was initially recognized as an expense by the Bank in previous annual Financial Statements or interim Financial Statements are not recognized as part of the cost of an intangible asset at a later date.

# **Computer Software and License**

Cost of purchased licenses and all computer software costs incurred, licensed for use by the Bank, which are not integrally related to associated hardware, which can be clearly identified, reliably measured, and it's probable that they will lead to future economic benefits, are included in the Statement of Financial Position under the category 'Intangible assets' and carried at cost less accumulated amortization and any accumulated impairment losses.

Acquired computer software licenses are capitalized on the basis of cost incurred to acquire and bring to use the specific software and are amortized over their useful life estimated as 5 years from the date of acquisition.

# Subsequent Expenditure

Expenditure incurred on software is capitalized only when it is probable that this expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standard of performance and this expenditure can be measured and attributed to the asset reliably. All other expenditure is expensed as incurred.

# Amortization of Intangible Assets

Intangible Assets, except for goodwill, are amortized on a straight–line basis in the Statement of Profit or Loss from the date when the asset is available for use, over the best of its useful economic life based on a pattern in which the asset's economic benefits are consumed by the bank. Amortization methods, useful lives, residual values are reviewed at each financial year end and adjusted if appropriate. The Bank assumes that there is no residual value for its intangible assets.

Asset Category	For the year ended 15 <sup>th</sup> July 2024	For the year ended 16 <sup>th</sup> July 2023
Computer Software	5 years	5 years

# **De-recognition of Intangible Assets**

The carrying amount of an item of intangible asset is derecognized on disposal or when no future economic benefits are expected from its use. The gain or loss arising on de recognition of an item of intangible assets is included in the Statement of Profit or Loss when the item is derecognized.

# **3.9. Investment Property**

Investment property is property (land or a building or part of a building or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both but not for sale in the ordinary course of business.

# Measurement

Investment property is accounted for under Fair Value in the Financial Statements. In the absence of information related to market price of the properties, the amount outstanding at the time of settlement of loan has been considered as the fair value of the asset.

# **De-recognition**

Investment properties are derecognized when they are disposed of or permanently withdrawn from use since no future economic benefits are expected. Transfers are made to and from investment property only when there is a change in use. When the use of a property changes such that it is reclassified as Property, Plant and Equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

# 3.10. Income Tax

The Bank is subject to income tax and judgment is required to determine the total provision for current, deferred and other taxes due to the uncertainties that exist with respect to the interpretation of the applicable tax laws, at the time of preparation of these Financial Statements.

As per Nepal Accounting Standard- NAS 12 (Income Taxes) tax expense is the aggregate amount included in determination of profit or loss for the period in respect of current and deferred taxation. Income Tax expense is recognized in the statement of Profit or Loss, except to the extent it relates to items recognized directly in equity or other comprehensive income in which case it is recognized in equity or in other comprehensive income. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to tax authorities.

# **Current Tax**

Current tax assets and liabilities consist of amounts expected to be recovered from or paid to Inland Revenue Department in respect of the current year, using the tax rates and tax laws enacted or substantively enacted on the reporting date and any adjustment to tax payable in respect of prior years.

# **Deferred Tax**

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination, and at the time of transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carried forward unused tax credits and unused tax losses (if any), to the extent that it is probable that the taxable profit will be available against which the deductible temporary differences, carried forward unused tax credits and unused tax losses can be utilized except:

- Where the deferred tax asset relating to the deductible temporary differences arising from the initial recognition of an asset or liability in a transaction that is not a business combination, and at the time of transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in Subsidiaries, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary difference will be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is probable that sufficient profit will be available to allow the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current and deferred tax assets and liabilities are offset only to the extent that they relate to income taxes imposed by the same taxation authority.

# 3.11. Deposits, debt securities issued and subordinated liabilities

Deposits, debt securities issued and subordinated liabilities are the Bank's sources of funding. Deposits include noninterest bearing deposits, saving deposits, term deposits, call deposits and margin deposits. The estimated fair value of deposits with no stated maturity period is the amount repayable on demand. The fair value of fixed interest bearing deposits is considered as the interest receivable on these deposits plus carrying amount of these deposits. The fair value of debt securities issued is also considered as the carrying amount of these debt securities issued. Sub-ordinate liabilities are liabilities subordinated, at the event of winding up, to the claims of depositors, debt securities issued and other creditors.

# 3.12. Provisions, Commitments and Contingencies

A provision is recognized if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognized is the best estimate of the consideration required to settle the present obligation at the reporting date, taking in to account the risks and uncertainties surrounding the obligation at that date. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is determined based on the present value of those cash flows. A provision for onerous contracts is recognized when the expected benefits to be derived by the Bank from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured as the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

Before a provision is established, the Bank recognizes any impairment loss on the assets associated with that contract. The expense relating to any provision is presented in the Statement of Profit or Loss net off any reimbursement.

All discernible risks are accounted for in determining the amount of all known liabilities. Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be reliably measured. Contingent liabilities are not recognized in the Statement of Financial Position but are disclosed unless they are remote.

The Bank receives legal claims against it in the normal course of business. Management has made judgments as to the likelihood of any claim succeeding in making provisions. The time of concluding legal claims is uncertain, as is the amount of possible outflow of economic benefits.

# **3.13. Revenue Recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to Bank and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

# **Interest Income**

Interest income is recognized in profit or loss for all interest-bearing instruments on an accrual basis using the method which is approximately the same with effective interest method as allowed by carve-out on NFRS. The effective interest rate is the rate that exactly discounts the expected estimated future cash payments and receipts through the expected life of the financial asset or liability. Where financial assets have been impaired, interest income continues to be recognized on the impaired value, based on the original effective interest rate.

Further, Nepal Rastra Bank had issued the Interest Recognition Guidelines, 2019 which set the framework for the recognition of interest income.

Accordingly, the Bank has recognized the interest income except for the interest accrued from following criteria as stated by the Guidelines:

- a. Loans where there is reasonable doubt about the ultimate collectability of principal or interest;
- b. Loans against which individual impairment as per NAS 39 or lifetime impairment as per NFRS 9 has been made;
- c. Loans where contractual payments of principal and/or interest are more than 3months in arrears and where the "net realizable value" of security is insufficient to cover payment of principal and accrued interest;
- d. Loans where contractual payments of principal and/or interest are more than12 months in arrears, irrespective of the net realizable value of collateral;
- e. Overdrafts and other short term facilities which have not been settled after the expiry of the loan and even not renewed within 3 months of the expiry, and where the net realizable value of security is insufficient to cover payment of principal and accrued interest;

f. Overdrafts and other short term facilities which have not been settled after the expiry of the loan and even not renewed within 12 months of the expiry, irrespective of the net realizable value of collateral.

#### Fee and Commission Income

Fees earned for the provision of services over a period of time are accrued over the period, which include service fees and commission income. The bank has availed the option provided as per carve out of NFRS for transaction cost to be included in computing effective interest rate.

#### **Dividend Income**

Dividend income is recognized when the right to receive payment is established.

#### **Net Trading Income**

Net trading income comprises gains less losses relating to trading assets and liabilities, and includes all realized interest, dividend on financial assets held for trading and foreign exchange differences as wells as unrealized changes in fair value of trading assets and liabilities.

#### Net income from other financial instrument measured at fair value through Profit or Loss

Trading assets such as equity shares and mutual fund are recognized at fair value through profit or loss. No other financial instruments are designated at fair value through profit or loss. The bank has no income under the heading net income from other financial instrument at fair value through profit or loss.

#### **3.14. Interest expense**

For financial liabilities measured at amortized cost, interest expense is recognized using the EIR to the extent material and practicable. EIR is the rate that exactly discounts estimated future cash payments through the expected life of the financial liabilities or a shorter period, where appropriate, to the net carrying amount of the financial liability.

#### **3.15. Employee Benefits**

Employee benefits include:

- Short-term employee benefits such as the following, if expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related services:
  - i. Wages, salaries and social security contributions;
  - ii. Paid annual leave and paid sick leave;
  - iii. Profit sharing and bonuses, and
  - iv. Non-monetary benefits (such as medical care, housing, cars and free or subsidized goods or services) for current employees;

Short term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short term cash bonus or profit sharing plans if the Bank has present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

- Post-employment benefits, such as the following:
  - i. Retirement benefits ( E.g.: pensions, lump sum payments on retirement); and
  - ii. Other post-employment benefits such as post-employment life insurance and post-employment medical care;

- Other long term employee benefits and
- Termination benefits

#### **1.** Post employments benefits

#### **Defined Contribution Plans**

A defined contribution plan is a post-employment benefit plan under which the Bank makes fixed contribution into a separate Bank account (a fund) and will have no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employee benefits relating to employee services in the current and prior periods as defined in Nepal Accounting Standards – NAS 19 (Employee Benefits).

The contribution payable by the employer to a defined contribution plan in proportion to the services rendered to Bank by the employees and is recorded as an expense under 'Personnel Expense' as and when they become due. Unpaid contributions are recorded as a liability under 'Other Liabilities' in Notes 4.23.

Bank contributed 10% of the salary of each employee to the Employees' Provident Fund. The above expenses are identified as contributions to 'Defined Contribution Plans' as defined in Nepal Accounting Standards – NAS 19 (Employee Benefits).

#### **Defined Benefit Plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Accordingly, staff gratuity has been considered as defined benefit plans as per Nepal Accounting Standards – NAS 19 (Employee Benefits).

#### • Gratuity

An actuarial valuation is carried out every year to ascertain the full liability under gratuity.

Bank's obligation in respect of defined benefit obligation is calculated by estimating the amount of future benefit that employees have earned for their service in the current and prior periods and discounting that benefit to determine its present value, then deducting the fair value of any plan assets to determine the net amount to be shown in the Statement of Financial Position. The value of a defined benefit asset is restricted to the present value of any economic benefits available in the form of refunds from the plan or reduction on the future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirement that apply to any plan in Bank. An economic benefit is available to Bank if it is realizable during the life of the plan, or on settlement of the plan liabilities.

The Gratuity recognition each year is as per the bank's employee by laws which stipulates for recognition of gratuity provision / payment as per the latest staff basic remuneration; multiplied by the eligible number of years.

Bank determines the interest expense on the defined benefit liability by applying the discount rate used to measure the defined benefit liability at the beginning of the annual period. The discount rate is the average yield on government bonds issued during the period having maturity dates approximating to the terms of Bank's obligations.

The increase in gratuity liabilities attributable to the services provided by employees during the year ended 16th July, 2024 (current service cost) has been recognized in the Statement of Profit or Loss under 'Personnel Expenses' together with interest expense under the Interest Expense of bank. Bank recognizes the total actuarial gain/(loss) that arises in computing Bank's obligation in respect of gratuity in other comprehensive income during the period in which it occurs.

#### Other long term employee benefits

Other long term employee benefits are all employee benefits other than short term employee benefits, post-employment benefits and terminal benefits.

#### Unutilized Accumulated Leave

Bank's policy related to the accumulation of the leave states for accumulation of total 150 days leave (60 days annual leave and 90 days medical leave), payable on gross salary of the staff on the date of encashment. Thus the liability of the bank is provisioned as per the latest staff remuneration for the leave accumulated, Bank's liability towards the accumulated leave is treated as short term employee benefit and additional cost resulting every year from the accumulation is charged to profit and loss account as per the definition of short term employee benefit of NAS 19.

#### 3.16. Leases

The determination of whether an arrangement is a lease or it contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

#### **Finance Lease**

Agreements which transfer to counterparties substantially all the risks and rewards incidental to the ownership of assets, but not necessarily legal title, are classified as finance lease.

When Bank is the lessor under finance lease, the amounts due under the leases, after deduction of unearned interest income, are included in, 'Loans& receivables from other customers', as appropriate. Interest income receivable is recognized in 'Net interest income' over the periods of the leases so as to give a constant rate of return on the net investment in the leases.

When Bank is a lessee under finance leases, the leased assets are capitalized and included in 'Property, Plant and Equipment' and the corresponding liability to the lessor is included in 'Other liabilities'. A finance lease and its corresponding liability are recognized initially at the fair value of the asset or if lower, the present value of the minimum lease payments. Finance charges payable are recognized in 'Interest expenses' over the period of the lease based on the interest rate implicit in the lease so as to give a constant rate of interest on the remaining balance of the liability.

#### **Operating Lease**

All other leases are classified as operating leases. When acting as lessor, Bank includes the assets subject to operating leases in 'Property, plant and equipment' and accounts for them accordingly. Impairment losses are recognized to the extent that residual values are not fully recoverable and the carrying value of the assets is thereby impaired. Lease payments under an operating lease are recognized as an expense as per NFRS 16 under Depreciation charge on right of use of assets and interest expense on lease liability basis over the lease term.

#### **3.17.** Foreign currency translation

All foreign currency transactions are translated into the functional currency, which is Nepalese Rupees, using the exchange rates (i.e. mid-rate) prevailing at the dates when the transactions were affected.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Nepalese Rupees using the spot foreign exchange rate ruling at that date and all differences arising on non-trading activities are taken to 'Other Operating Income' in the Statement of Profit or Loss. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the rates of exchange prevailing at the end of the reporting period.

Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items in foreign currency measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Foreign exchange differences arising on the settlement or reporting of monetary items at rates different from those which were initially recorded are dealt with in the Statement of Profit or Loss.

#### 3.18. Financial guarantee and loan commitments

Contingent Liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefits is not probable or cannot be reliably measured as defined in the Nepal Accounting Standard-NAS 37 (Provisions, Contingent Liabilities and Contingent Assets).

To meet the financial needs of customers, the Bank enters into various irrevocable commitments and contingent liabilities. These consist of financial guarantees, letter of credit and other undrawn commitments to lend. Letters of credit, guarantees and acceptances commit the Bank to make payments on behalf of customers in the event of a specific act, generally related to the import or export of goods. They carry a similar credit risk to loans. Operating lease commitments of the Bank (as a lessor and as a lessee) and pending legal claims against the Bank to form part of commitments of the Bank. Contingent liabilities are not recognized in the Statement of Financial Position but are disclosed unless they are remote. But these contingent liabilities do contain credit risk and are therefore form part of the overall risk of the Bank.

Financial guarantees are initially recognized in the Statement of Financial Position (within 'other liabilities') at fair value, being the premium received. Subsequent to initial recognition, the Bank's liability under each guarantee is measured at the higher of the amount initially recognized less cumulative amortization recognized in the Statement of Profit or Loss, and the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee.

Any increase in the liability relating to the financial guarantees is recorded in the Statement of Profit or Loss under 'Impairment Charges for Loans & other losses'. The premium received is recognized in the Statement of Profit or Loss under 'Net fees and commission income' on a straight line basis over the life of the guarantee; except for the commission income up to Rs. 1,00,000, which is recognized as realized irrespective of the period of guarantee.

#### **3.19.** Share capital and reserves

Share capital and reserves are different classes of equity claims. Equity claims are claims on the residual interest in the assets of the entity after deducting all its liabilities. Changes in equity during the reporting period comprise income and expenses recognized in the statement of financial performance; plus contributions from holders of equity claims, minus distributions to holders of equity claims.

#### 3.20. Earnings per share including diluted

Bank presents basic and diluted Earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit and loss attributable to ordinary equity holders of Bank by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting both the profit and loss attributable to the ordinary equity holders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares, if any.

Earnings per share is calculated and presented in consolidated statement of profit or loss.

#### **3.21. Segment Reporting**

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity),
- whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and
- for which discrete financial information is available.

The bank has identified the key segments of business on the basis of nature of operations that assists the Executive Committee of the bank in decision making process and to allocate the resources. It will help the management to assess the performance of the business segments. The business segments identified are Banking (including loan, deposit and trade operations), Payment solutions (Cards), Remittance, and Treasury.

#### 3.22. Employee Bonus

Employee bonus shall be calculated at the rate of 10% of Net Profit as per Bonus Act, 2030.

#### 3.23. Dividend on Ordinary Shares

Dividend on ordinary shares are recognized as a liability and deducted from equity when they are approved by the Bank's shareholders. Dividend for the year that is approved after the reporting date is disclosed as an event after the reporting date.

#### 3.24. Cash Flow Statement

The Bank has reported its cash flow statement applying the 'Direct Method' in accordance with NAS 07 – "Statement of Cash Flows". Application of the direct method in presenting cash flow statement discloses major classes of gross cash receipts and gross cash payments thereby provides information which may be useful in estimating future cash flows of an entity.

The statement of cash flows reports cash flows during the period classified by operating, investing and financing activities as defined here under:

- Operating Activities
- Investing Activities:
- Financing Activities:

Loans and advances are assessed individually and collectively as per incured loss model which is compared with the loss provision prescribed by NRB directive no. 2. Higher of the loss as per incurred loss model and NRB directive is considered for impairment. Accrued Interest Receivable on loans have been considered under Loans and Advances measured at Amortized Cost. Loan to employees provided according to the Employee Bylaws of the bank is presented under this head, which is also measured at amortized cost.

#### 5. Disclosures and Additional Information

#### 5.1. Risk Management

#### 5.1.1.a. Risk management framework

All of the Bank's activities involve, to varying degrees, the analysis, evaluation, acceptance and management of risks or combinations of risks. The Bank has placed high importance to identification, assessment and well thought out handling of all the prominent risk that it faces or likely to face in execution of its activities. The Bank is quite aware about the risk profile of the business and is committed to establish a strong Risk Management System in the bank. An established risk management framework ensures oversight of and accountability for the effective management of risk at Country and regional business levels. For managing risks effectively, the Bank has an independent risk management department to assess its position regarding each separate risk area including Credit Risk, Market Risk, Operational Risk, Compliance & Legal Risk and Reputation Risk. The management through Risk Management Committee (RMC) comprising 4 members, 2 of which represent BOD, Chief Operating Officer and Chief Risk Officer. Risk management is an all-round practice in the bank. Every business unit and department is well informed about its activities and risks corresponding to those activities.

#### 5.1.2.b. Risk appetite and tolerance limits for key types of risks

Risk appetite in the context of Kumari Bank Limited is defined as the level and nature of risk that the bank is willing to take for pursuing its mission on behalf of its shareholders, subject to constraints imposed by other stakeholders, such as debt holders, regulators, and customers. It provides a framework for strategic decision making for the Bank.

The Board of Directors of the bank is responsible for setting the bank's tolerance for the risks. The Bank sets out the aggregated level and risk types it accepts in order to achieve its business objectives in the Risk Management Policy of the Bank. Risk strategy of the bank shall reflect the Bank's business preferences and conduct, and shall be aligned with its risk tolerance capacity.

The Bank's actual performance is reported against approved risk profile and risk appetite, enabling senior management to monitor the risk profile and guide business activity to balance risk and return. The Bank shall state the business it wants to undertake sector wise, location wise and product wise. Accordingly, the Bank shall formulate a risk tolerance level or risk appetite.

Step	ps	Description		
1.	Identify & Classify Risks	<ul><li>Identification of all material risks.</li><li>Classify the risks as acceptable or unacceptable risks.</li></ul>		
2.	Identify risk return matrices	<ul> <li>Identify risk and return measures based on benchmarking with the peers.</li> <li>For example, proportion of NPL to total loans serves as a good measure to quantify risk appetite for credit risk</li> </ul>		
3.	Identify peer group	• The peer group of the Bank shall comprise of bank's functioning in same or similar geographical regions, comparable size and business strategies		
4.	Analyze, measure and formulate risk appetite statements	<ul> <li>Measures chosen are scrutinized among the peers for identifying drivers and set tolerance limits for risk measures and target levels for return measures.</li> <li>These risk appetite statements shall drive the business growth strategy of the Bank</li> </ul>		

Following steps shall be undertaken to formulate a risk appetite statement for the Bank:

The risk appetite is proposed by the management and reviewed by the board level risk management committee.

#### 5.1.1.c. Stress testing

Stress Testing is the process where a number of statistically defined possibilities are determined based on the most damaging combination of events, and the loss they would produce. It is a valuable risk management tool which studies the impact of unlikely but not impossible stress events. A stress event is an exceptional but credible event to which a bank's portfolio is exposed. As a part of its risk measurement mechanism, Kumari Bank Ltd. puts an emphasis on evaluating where the Bank stands under stressful market conditions. It helps to provide information on the kinds of conditions under which strategies or position, the Bank would be most vulnerable and thus, strategies are devised such that such circumstance doesn't arise and/or to ensure least impact upon the Bank from such scenarios even if they do occur.

In conducting stress tests, the Bank gives special consideration to instruments or markets where concentrations exist as such positions may be more difficult to liquidate or offset in stressful situations. The Bank considers both historical market events as well as forward-looking scenarios and also considers worst case scenarios in addition to more probable events. Ad hoc scenarios are also prepared reflecting specific market conditions and for particular concentrations of risk that arise within the businesses. For example, credit shock scenario is measured in terms of deterioration of assets quality in terms of the adequacy of capital of the bank.

The stress testing methodology assumes that scope for management action would be limited during a stress event, reflecting the stress scenarios in Credit Shocks, Market Shocks, Liquidity Shock and other factors of stress scenarios in the banking sector. The Board of the bank has responsibility for reviewing stress exposures and, where management oversight, monitoring, evaluation and reporting at regular intervals. Regular stress test scenarios are applied and the report on regular basis reviewed by the Board of the bank along with discussions at Risk Management Committee (RMC).

The stress testing mechanism at KBL aims to address:

- a) Concentration risk;
- b) Illiquidity of markets in stressed market conditions;
- c) Credit Shocks- CAR perspectives and NPL perspectives;
- d) Market Interest rate risk scenarios;
- e) Exchange rate and equity investment fluctuations risks; and
- f) Other Risks

KBL's stress tests are both of a quantitative and qualitative nature, incorporating credit risk, market risk and liquidity risk aspects. Quantitative criteria identify plausible stress scenarios to which bank could be exposed. Qualitative criteria emphasize that two major goals of stress testing are to evaluate the capacity of the bank's capital to absorb potential large losses and to identify steps the Bank can take to reduce its risk and conserve capital. This assessment is integral to setting and evaluating the Bank's strategy and the results of stress testing are routinely communicated to RMC and the board of the bank.

The Bank carries out stress testing in three broad areas based on credit shocks, market shocks and liquidity shocks which are discussed below:

#### I. Credit Shocks:

The Bank subjects its portfolios to a series of simulated stress scenarios. The Bank stresses its portfolios with the shocks of the magnitude experienced elsewhere, even when the Bank has never been exposed to those in the past.

The Bank has formulated stress testing framework where various historical scenarios have been analyzes. The Bank carries out stress testing in line with the stress testing framework on a regular basis as prescribed by Stress Testing Framework or NRB guidelines issued from time to time, under Case basis or collective basis of CAR and NPL perspective along with Concentration stress risks.

#### **II. Market Shocks:**

In addition to the above credit shocks, the Bank has also developed stress tests which it identifies as most adverse based on the characteristics of its market portfolio. The interest rate risks, exchange rate risks and equity price risks are evaluated and the results are reviewed periodically.

#### **III. Liquidity Shocks:**

Stress test scenarios are continually reviewed and updated for the liquidity risk scenarios whereby, various factors as impact of continual withdrawals on case or collective basis on CAR and liquidity positions are stressed. Also, concentration risks are also evaluated and the various scenarios are developed to assess the risks possessed due to high level of deposit concentrations.

#### **Results of stress testing**

The result of stress testing is communicated to the Board of Directors and senior management on regular basis. The same is also discussed in detail in Risk Management Committee. The report of stress testing is also shared with Nepal Rastra Bank as per the requirement of Unified Directives issued by Nepal Rastra Bank.

#### Scenario analysis and Sensitivity Analysis

Scenario analysis and sensitivity analysis is conducted through the model developed by Bank Supervision Department, Nepal Rastra Bank. However, on need basis, the Bank also adopts other techniques and develops other scenarios on case to case basis.

#### 5.1.2.a. Credit Risk

Credit risks are the risk associated with the probability of default of loan provided by the bank. Hence, the credit risks comprise of the highest risk exposure of the bank. Management of the credit risks largely signifies the risk management of the bank as whole.

#### Credit risk:

- Is measured as the amount which could be lost if a customer or counterparty fails to make repayments.
- Is monitored within limits, approved by individuals within a framework of delegated authorities. These limits represent the peak exposure or loss to which the Bank could be subjected should the customer or counterparty fail to perform its contractual obligations;
- Is managed through a robust risk control framework which outlines clear and consistent policies, principles and guidance for credit risk management.

#### 5.1.2.b. Credit Risk Management

The Bank has its own Credit Risk Policy and Strategy to handle the Credit Risk Management philosophy that involves a continual measurement of probability of default/loss; identification of possible risks and mitigations. In order to manage and eliminate the credit risk, the Bank has a practice of maintaining the best quality assets in its book. The Bank's Credit Policy elaborates detailed procedures for proper risk management. The Bank has delegated credit approval limits to various officials to approve and sanction various amount of credit request based on their individual expertise and risk judgment capability.

As a check and balance mechanism, each credit case requires dual approval. Regular monitoring of the credit portfolio ensures that the Bank does not run the risk of concentration of portfolio in a particular business sector or a single borrower. Similarly, the Bank also exercises controlled investment policy with adequately equipped resource looking after the investment decisions. To cap these all, the Bank has strong Credit processing channels in place comprising of various Directors from the Board of the Bank which reviews all credit proposals beyond a specified amount.

#### 5.1.2.c. Impairment assessment and credit risk mitigation

The Bank creates impairment allowances for impaired loans promptly and appropriately.

#### Impairment assessment methodology

#### a. Impairment of Financial Assets carried at Amortized Cost

The Bank first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant. When an account is classified as default or when the Bank no longer expect to recover the principle or interest due on a loan in full or in accordance with the original terms and conditions, it is assessed for impairment. If exposures are secured, the current net realizable value of the collateral will be taken into account when assessing the need for an impairment allowance. When the net present value of the collateral is sufficiently adequate to cover the outstanding facilities, impairment is not calculated for such cases.

In the event Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, it includes the asset in a group of financial assets with similar credit risk characteristics such as collateral type, past due status and other relevant factors and collectively assesses them for impairment. However, assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

Impairment is assessed on a collective basis in two circumstances:

- To cover losses which have been incurred but have not yet been identified on loans subject to individual assessment; and
- > For homogeneous groups of loans those are not considered individually significant.

#### Incurred but not yet identified impairment

Individually assessed financial assets for which no evidence of loss has been specifically identified on an individual basis are grouped together according to their credit risk characteristics for the purpose of calculating an estimated collective loss. This reflects impairment losses that the bank has incurred as a result of events occurring before the reporting date, which the Bank is not able to identify on an individual loan basis and that can be reliably estimated.

These losses will only be individually identified in the future. As soon as information becomes available which identifies losses on individual financial assets within the group, those financial assets are removed from the group and assessed on an individual basis for impairment.

The collective impairment allowance is determined after taking into account:

- > Historical Loss Experience in portfolios of similar credit risk; and
- Management's experienced judgment as to whether current economic and credit conditions are such that the actual level of inherent losses at the reporting date is like to be greater or less than that suggested by historical experience.

#### Homogeneous groups of Financials Assets

Statistical methods are used to determine impairment losses on a collective basis for homogenous groups of financial assets. Losses in these groups of financial assets are recorded on an individual basis when individual financial assets are written off, at which point they are removed from the group.

Bank uses the following method to calculate historical loss experience on collective basis:

After grouping of loans on the basis of homogeneous risks, the Bank uses net flow rate method. Under this methodology, the movement in the outstanding balance of customers into default categories over the periods are used to estimate the amount of financial assets that will eventually be irrecoverable, as a result of the events occurring before the reporting date which the Bank is not able to identify on an individual loan basis.

Under this methodology, loans are grouped into ranges according to the number of days in arrears and statistical analysis is used to estimate the likelihood that loans in each range will progress through the various stages of delinquency and ultimately prove irrecoverable.

Current economic conditions and portfolio risk factors are also evaluated when calculating the appropriate level of allowance required covering inherent loss. These additional macro and portfolio risk factors may include:

- Recent loan portfolio growth and product mix
- Unemployment rates
- Gross Domestic Production (GDP)Growth
- ➢ Inflation
- Interest rates
- > Changes in government laws and regulations
- Property prices
- Payment status

But, the amount of provision to be created against Loans and Advances shall be higher of the following two amounts:

- i) Impairment calculated as per Impairment Assessment Methodology as described in Pt. 5.1.2. c above or,
- ii) Loan Loss Provision calculated as per the provisions of Directive No. 2, Unified Directives, 2079 and Circular issued by Nepal Rastra Bank.

#### Impairment calculation by following the methodology described in Pt. 5.1.2.c above

- i) Firstly, top borrowers constituting around 25%-30% of total funded exposure of the Bank is subjected to Individual Impairment Testing in FY 2080-81
- ii) Loans and advances as filtered out following pt-(i) were tested for individual impairment including following criteria but not limited to:
  - ▶ Known Cash Flow difficulties experienced by the borrowers:
  - > Past due contractual payments of either principal or interest;
  - Breach of loan covenants or conditions;
  - > The probability that the borrower will enter bankruptcy or other financial reorganization; and
  - > A significant downgrading in credit rating by an external credit rating agency.
  - Bank's aggregate exposure to the customer;
  - The viability of the customer's business model and their capacity to trade successfully out of financial difficulties and generate sufficient cash flows to service debt obligations;
  - > The amount and timing of expected receipts and recoveries;
  - The extent of other creditors 'commitments ranking ahead of, or pari-pasu with the Bank and the likelihood of other creditors continuing to support the company;
  - > The realizable value of security and likelihood of successful repossession;
- iii) As per the impairment testing conducted as per Pt. (ii), only few loans and advances were identified as individually impaired in each FY 2080-81

Amount (Rs.)

Particulars	FY 2080/81
Total Individual Impairment as per NAS 39	2,480,937,978

- iv) All loans and advances were then grouped into homogenous types such as home loans, auto loans, term loans, etc. to calculate collective impairment.
- v) Collective impairment was calculated following net flow rate method. Under this methodology, the movements in the outstanding balance of customers into default categories over the periods are used to estimate the amount of financial assets that will eventually be irrecoverable, as a result of the events occurring before the reporting date which the Bank is not able to identify on an individual loan basis.
- vi) Collective impairment as per the method mentioned in Pt. (v) in each FY 2080-81 is shown below:

Amount (Rs.)

Particulars	FY 2080/81
Total Collective Impairment as per paragraph 63 of NAS 39	9,228,167,254

#### Write off of loans and receivables

Loans (and the related impairment allowance) are normally written off, either partially or in full, when there is no realistic prospect of recovery. Where loans are secured, this is generally after receipt of any proceeds from the realization of security. In circumstances where the realizable value of any collateral has been determined and there is no reasonable expectation of further recovery, write off may be earlier.

#### **Collateral management**

The Bank seeks to use collateral, where possible, to mitigate its risks on financial assets. The collateral comes in various forms such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. The fair value of collateral is generally assessed, at a minimum, at inception and based on the guidelines issued by the Nepal Rastra Bank. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as independent valuator and audited financial statements.

#### Credit Risk Mitigants availed under CRM

Types of eligible credit risk mitigants used and the benefits availed under CRM as at 15 July 2024 are as follows:

Amount (Rs.)

Particulars	Eligible CRM
Deposit with Bank & Cash margin	2,796,346,656
Gold	-
Deposit with Other Bank / FI	-
Total	2,796,346,656

#### b. Impairment of Financial Assets – Fair Value through OCI

For financial asset at fair value through OCI, Bank assesses at each reporting date whether there is objective evidence that an investment is impaired.

In the case of debt instruments, Bank assesses individually whether there is objective evidence of impairment based on the same criteria as financial assets carried at amortized cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in the Income Statement. Future interest income is based on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to a credit event occurring after the impairment loss was recognized, the impairment loss is reversed through the Statement of Profit or Loss.

In the case of equity investments classified as available for sale, objective evidence would also include a 'significant' or 'prolonged' decline in the fair value of the investment below its cost. Where there is evidence of impairment, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in profit or loss is removed from equity and recognized in the Statement of profit or loss. However, any subsequent increase in the fair value of an impaired available for sale equity security is recognized in other comprehensive income.

Bank writes-off certain available for sale financial investments when they are determined to be uncollectible.

#### 5.1.3.a. Liquidity Risk

Liquidity is crucial to the ongoing viability of any financial institution. Liquidity risk is the potential for loss to a bank arising from either its inability to meet its obligations or to fund increases in assets as they fall due without incurring unacceptable cost or losses. Liquidity is the ability of an institution to transform its assets into cash or its equivalent in a timely manner at a reasonable price to meet its commitments as they fall due. Liquidity risk is considered a major risk for banks. It arises when the cushion provided by the liquid assets are not sufficient enough to meet its obligation. In such a situation banks often meet their liquidity requirements from market. Funding through market depends upon liquidity in the market and borrowing bank's liquidity.

Liquidity risk is:

- Measured using maturity ladder analysis
- Monitored against the Bank's liquidity risk management framework and overseen by Asset and Liability Management Committee.
- Managed on a stand-alone basis with no reliance on any related party or the Nepal Rastra Bank, unless this represents routine established business as usual market practice.

#### 5.1.3.b. Management of liquidity risk

The board has ensured that the bank has necessary liquidity risk management framework and bank is capable of confronting uneven liquidity scenarios. The bank has formulated liquidity risk management policy, risk management policies which are recommended by senior management and approved by the Board of Directors. The bank utilizes flow measures to determine its cash position. A maturity ladder analysis estimates a bank's inflows and outflows and thus net deficit or surplus (GAP) over a time horizon. A maturity ladder is a useful device to compare cash inflows and outflows both on a day-to-day basis and over a series of specified time periods as presented in the NRB Ni.Fa.No.5.1 under NRB Directives No. 5.

Liquidity of the bank is assessed, measured and maintained by Financial Market Department by ensuring minimal compliance with Nepal Rastra Bank prescribed ratios such as CRR, SLR, and Credit to Deposit Ratio and Liquidity Coverage Ratio. The department also maintains investments over and above the prescribed limit to cope up with the unprecedented liquidity risks that the Bank is ever exposed to.

#### 5.1.4.a. Market Risk

Market risks are the risk of losses in on-balance sheet and off- balance sheet positions arising from adverse movements in market prices. The major constituents of market risks are:

- a) The risks pertaining to interest rate related instruments;
- b) Foreign exchange risk (including gold positions) throughout the bank; and
- c) The risks pertaining to investment in equities and commodities.
- d) The risk pertaining to concentration and correlation factors in market transactions

#### 5.1.4.b. Management of Market Risk

The Bank has Asset Liability Management (ALM) Policy, Market Risk Management Policy, Investment Policy along with Treasury manuals in place, which serves as a guide to address the market risk of the Bank. As for the monitoring of market and liquidity risk, the Bank has an active Assets and Liability Management Committee (ALCO) in place which meets regularly and takes stock of the Bank's assets and liability position and profile of assets & liabilities, monitors risks arising from changes in exchange rates in foreign currencies. All foreign exchange positions are managed by financial market consisting of front office dealers with specific dealing limits and an independent back office. The back office executes the deals made by the dealers and also monitors the liquidity position of the Bank. For the purpose of proper check and control, the front dealing room of financial market and the back office has different reporting line.

Apart from Financial Market (or front office) and back office, the bank also has Treasury Mid Office; which works as a third eye which assesses the risks and timely evaluates and report to the senior management, hose reporting chain is also separate to the front and back office.

#### 5.1.4.c. Market Risk Assessment Methodology

Out of the various components of market risk, foreign exchange risk is the predominant risk in Nepal. Thus, a net open position approach has been adopted to measure the operational risk exposure of the bank in aggregation and the capital requirement in commensurate of the same as set out by Capital Adequacy Framework issued by Nepal Rastra Bank.

#### 5.1.5.a. Operational Risk

Operational risks are risk of loss resulting from inadequate internal processes, people and systems, or from external events. Operational risks are highly important as it entails cent percent loss to the bank in the event of its occurrence.

#### 5.1.5.b. Management of Operational Risk

As a part of monitoring operational risks, the Bank has devised operational manuals for various Banking functions, which are reviewed and modified time to time as per the changing business context.

The Bank has adopted dual control mechanism in its all operational activities where each and every financial and nonfinancial transaction is subject to approval from an authority higher than the transaction initiator. Regular review meetings are conducted to assess the adequacy of risk monitoring mechanism and required changes are made as and when felt necessary. Independent reconciliation unit is established to conduct daily reconciliation of all Nostro / agency accounts, Inter-Branch and Inter-Department account.

The Bank has independent internal audit, which reports to the Audit Committee of the Bank. The Audit Committee meets frequently and reviews the business process and financial position of the Bank. In order to have better focus on managing operational risks across branches and to monitor them from Head Office level, the Bank has separate Branch Operation Department and Operation Risk Management & Compliance Department at Head Office. The Bank has strong MIS in place to monitor the regular operational activities.

#### 5.1.5.c. Operational Risk Assessment Methodology

Operational risks are assessed employing the Basic Indicators Approach as set out by Capital Adequacy Framework issued by Nepal Rastra Bank. The Basic Indicators Approach assesses operational risk in aggregation and is calculated by multiplying the operational risk capital charge by 11%. Bank assesses the operational risk based on the past operational loss due to system failure, staff embezzlement and other external factors which is considered at the time of calculation of economic capital.

#### 5.1.6. Fair value of financial assets and liabilities

Fair value is a market-based measurement, not an entity specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same – to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions (i.e. an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

Fair values are determined according to the following hierarchy:

#### Level-1 inputs

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

#### Level-2 inputs

Level 2 inputs are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

#### Level-3 inputs

Level 3 inputs are those where at least one input, which could have a significant effect on the instrument's valuation, is not based on observable market data.

#### 5.2. Capital Management

#### i. Qualitative disclosures

Capital management approach is driven by its desire to maintain a strong capital base to support the development of its business and to meet the regulatory capital requirements.

Capital planning and management is essential to ensure adequate level of capital is available at all times. In order to be prepared for distressed economic environments, capital management plan of the Bank incorporate various potential scenarios and is responsive to changes in the economy, market, competitive or political landscape, or other external factors.

Following elements are taken into consideration while devising an effective capital management plan for the Bank:

- Minimum capital requirements as per NRB
- Business growth prospects and risks
- Potential capital raising instruments such as equity, preference stocks, bonds etc
- Various stress scenarios
- Others as considered necessary by the senior management

#### • Internal approach of the Bank to assess capital adequacy

In order to be prepared for distressed economic environments, the Bank assesses the adequacy of its capital by incorporating various potential scenarios and being responsive to changes in the economy, market, competitive or political landscape, or other external factors.

Banks are faced with the challenge of developing internal procedures and systems in order to ensure that they possess adequate capital resources in commensuration with all material risks posed to it by its operating activities. The bank has devised Internal Capital Adequacy Assessment Process (ICAAP), which is a set of policies, methodologies, techniques and procedures to assess the capital adequacy requirements in relation to bank's risk profile and effectiveness of its risk management, control environment and strategic planning.

Following elements are taken into consideration while assessing capital adequacy of the Bank:

- Minimum capital requirements as per NRB
- Business growth prospects and risks
- > Potential capital raising instruments such as equity, preference stocks, bonds etc
- Various stress scenarios
- > Others as considered necessary by the senior management

#### b) Associates

Associates are an entity over which the investor has significant influence. Where an entity holds 20% or more of the voting power (directly or through subsidiaries) on an investee, it will be presumed the investor has significant influence unless it can be clearly demonstrated that this is not the case. If the holding is less than 20%, the entity will be presumed not to have significant influence unless such influence can be clearly demonstrated. The existence of significant influence by an entity is usually evidenced in one or more of the following ways:

- representation on the board of directors or equivalent governing body of the investee;
- participation in the policy-making process, including participation in decisions about dividends or other distributions;
- material transactions between the entity and the investee;
- interchange of managerial personnel; or
- provision of essential technical information

Transactions between the Bank and its associates also meet the definition of related parties.

The Bank exercise significant influence in the financial and operating policy decisions of any of its investees as at and Ashad 31, 2081 as the bank has representation on the board of directors in case of following investees:

#### 5.9. Merger and Acquisition

The Bank has not entered into any merger or acquisition activity in FY 2023-24.

#### 5.10. Additional disclosures of non-consolidated entities

Nepal Financial Reporting Standard (NAS 24) "Disclosure of Interests in Other Entities", is applicable when an entity has interest in any of the following:

- Subsidiaries
- Joint arrangements (joint operations or joint ventures)
- Associates
- Unconsolidated structured entities

The Bank has already disclosed its interests in subsidiaries and associates in 5.8. Related parties' disclosures. The Bank does not have any interest in any form of joint arrangements or unconsolidated structured entities as on Ashad 31, 2080 as well as Ashad 31, 2081.

#### **5.11.** Events after reporting period

Events after the reporting date are those events, favorable and unfavorable, that occur between the reporting date and the date the Financial Statements are authorized for issue.

The Bank follows NAS-10 "Events after the Reporting Period" to account for and report the events that have occurred after the reporting period.

#### Adjusting events after reporting period

The Bank has also availed the provision as provided by NRB directive that allows Banks to consider interest recovery made till August 16, 2024 while calculating amount to be transferred to regulatory reserve on account of interest income recognized on accrual basis but not realized for an amount of NPR. 1,666,623,449 till July 15, 2024.

#### 5.12. Availment of Carve-outs notified by Institute of Chartered Accountants of Nepal

The Institute of Chartered Accountants of Nepal has notified 2 Carve-outs in NFRS which allows alternative treatment. Out of the 2 Carve-outs, the Bank has availed following Carve-outs while preparing its financial statements for FY 2080/81:

- a) Carve-Out: 1 NFRS 9: Financial Instruments: Recognition and Measurement (Incurred Loss Model to measure the Impairment Loss on Loan and Advances)
- b) Carve-Out: 2 NFRS 9: Financial Instruments: Recognition and Measurement (Impracticability to determine transaction cost of all previous years which is the part of effective interest rate); one year extended for implementation.

# i. Carve-Out: 1 - NAS 39: Financial Instruments: Recognition and Measurement (Incurred Loss Model to measure the Impairment Loss on Loan and Advances)

As per NAS-39, an entity shall assess at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets measured at amortized cost is impaired. If any such evidence exists, the entity shall apply paragraph 63 to determine the amount of any impairment loss.

The Carve-out requires Banks to measure impairment loss on loans and advances as the higher amount derived as per norms prescribed by Nepal Rastra Bank for loan loss provision and amount determined as per paragraph 63 of NAS-39; and shall apply paragraph 63 to measure the impairment loss on financial assets and other assets other than loan and advances. The Bank shall disclose the impairment loss as per the Carve-out and the amount of impairment loss determined as per paragraph 63.

If there is objective evidence that an impairment loss on financial assets measured at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset shall be reduced either directly or through use of an allowance account. The amount of the loss shall be recognized in profit or loss.

The Bank has availed the Carve-out and has accordingly recognized impairment loss on loans and advances as the higher amount derived as per norms prescribed by Nepal Rastra Bank for loan loss provision and amount determined as per paragraph 63 of NAS-39. The detail of impairment loss on loans and advances are as follows:

Amount in '000

Particulars	2078/79	2079/80	2080/81
Total Loan loss provision as per norms prescribed by Nepal Rastra Bank (NRB Directive No. 2) and circular issued.	3,925,358,976	16,343,918,721	23,185,329,351
Total Impairment as per paragraph 63 of NAS 39	964,942,213	7,882,029,481	11,709,105,232

As, Loan loss provision as per norms prescribed by Nepal Rastra Bank is higher, impairment loss on loans and advances is made accordingly.

The Bank has classified total loan loss provision mentioned above into 2 categories viz. Individual Impairment and Collective Impairment. The Bank has classified general loan loss provision as Collective Impairment and specific loan loss provision as Individual Impairment.

# ii. Carve-out: 2- NAS 39: Financial Instruments: Recognition and Measurement (Impracticability to determine transaction cost of all previous years which is the part of effective interest rate)

As per NAS-39, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses while calculating the effective interest rate. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see NAS 18 – Revenue).

The Carve-out states that the effective interest rate calculation shall estimate the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call, and similar options) but shall not consider the expected credit losses. The calculation includes all fees and points paid or received unless it is immaterial or impracticable to determine reliably, between parties to the contract that are an integral part of the effective interest rate (see paragraphs BS.4.1-BS.4.3), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments). The Bank has availed this Carve-out and opted for the extended time limit for its implementation and has not considered all fees and points paid or received which are impracticable to measure reliably while determining effective interest rate.

#### 5.13. Dividend and Bonus

#### 5.36 Operating Lease recognized as per NFRS 16

As per NFRS 16, Lease expense shall be recognized at the commencement date, a lessee shall recognize a right-of-use asset and a lease liability. At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

After the commencement date, a lessee shall measure the lease liability by:

- (a) Increasing the carrying amount to reflect interest on the lease liability;
- (b) Reducing the carrying amount to reflect the lease payments made; and
- (c) Re-measuring the carrying amount to reflect any reassessment or lease modifications to reflect revised in-substance fixed lease payments.

#### 5.38. Impairment of Goodwill

As per Paragraph 10 of NFRS 36 i.e impairment of asset, irrespective of whether there is any indication of impairment, an entity shall also test goodwill acquired in a business combination for impairment annually.

A cash-generating unit (CGU) to which goodwill has been allocated shall be tested for impairment annually, and whenever there is an indication that the unit may be impaired, by comparing the carrying amount of the unit, including the goodwill, with the recoverable amount of the unit. If the recoverable amount of the unit exceeds the carrying amount of the unit, the goodwill allocated to that unit shall be regarded as not impaired. If the carrying amount of the unit exceeds the recoverable amount of the unit, the entity shall recognize the impairment loss. Since the recoverable amount is higher than carrying amount of the cash generating unit, goodwill allocated is not impaired.

## INDEPENDENT AUDITOR'S REPORT

#### To the Shareholders of Kumari Capital Limited

#### **Report on the Audit of the Financial Statements**

#### Opinion

We have audited the financial statements of **Kumari Capital Limited**, which comprise the statement of financial position as at 31 Ashad 2081 (15 July 2024), and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of **Kumari Capital Limited** as at 31 Ashad 2081 (15 July 2024), and its financial performance and its cash flows for the year then ended in accordance with Nepal Financial Reporting Standards (NFRSs).

#### **Basis for Opinion**

We conducted our audit in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the company in accordance with ICAN's Handbook of Code of Ethics for Professional Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

On the basis of our audit and our professional judgement we have not noted reportable Key Audit Matters.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with NFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, weather due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

वार्षिक प्रतिवेदन २०८०/०८१ । 169

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, international omissions, misrepresentations, or the override of internal control.
- Obtain and understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on audit evidence obtained up to the date of our auditor's report. However, further events or conclusions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that they may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

We further report that;

- We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of audit,
- The accounts and records of the Company has been maintained as required by law,
- Financial statements are in agreement with the books of account maintained by the Company,
- In our opinion and to the best of our information and according to explanation given to us, the Board of Directors, the representative or any employee of the Company has not acted contrary to the legal provisions relating to accounts nor caused direct loss or damage to the Company deliberately or acted in a manner that would jeopardize the interest and security of the Company,
- The operations of the Company were within its jurisdiction,
- We have not come across any fraudulence in accounts, so far as it appeared from our examination of books of account.

#### INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF K..B. L. SECURITIES LIMITED

#### Opinion

We have audited the accompanying financial statements of **K. B. L. Securities Limited** ("The Company"), which comprise the Statement of Financial Position as at Ashad 31, 2081, (July 15, 2024), the Statement of Profit or Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended on that date, and a summary of the significant accounting policies and other explanatory information (hereafter referred to as "the financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid the financial statements present fairly, in all material respects, the financial position of the company, as at 31 Ashadh, 2081, and its financial performance, cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, in accordance with Nepal Financial Reporting Standards (NFRS) and other prevailing laws.

#### **Basis for Opinion**

We conducted our audit of the financial statements in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Handbook of The Code of Ethics for Professional Accountants issued by The Institute of Chartered Accountants of Nepal (ICAN), and we have fulfilled our other ethical responsibilities in accordance with the ICAN's Handbook of The Code of Ethics for Professional Accountants. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. During our audit of the financial statements, we observed that there were no key audit matters that are to be addressed in the context of our audit as a whole and would affect in forming our opinion thereon.

#### Other Information

Management is responsible for other information. The other information comprises the Chairman's statement and directors report, but does not include the financial statements and our auditors report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibility of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial Statements in accordance with Nepal Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud and error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with

them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Report on Other Legal and Regulatory Requirements**

On the basis of our examination, we would like to further report that:

- i) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose for audit.
- ii) The accounts and records of the company have been maintained as required by law.
- iii) Financial statements are in agreement with the books of account maintained by the company.
- iv) In our opinion and to the best of our information and according to the explanations given to us, the Board of Directors, the representative or any employee of the company has not acted contrary to the provision of law relating to accounts nor caused direct loss or damage to the company deliberately or acted in a manner that would jeopardize the interest and security of the company.
- v) The operations of the company were within its jurisdiction.
- vi) We have not come across any fraudulence in the accounts, so far as it appeared from our examination of the book of accounts.
